THE HOWE ENTERPRISE, THURSDAY, JUNE 24, 1971 — VOL. VII — No. 49

THE U.S. EDITION OF
The Guinness Book of World
Records has just been published, but as always on "providing a means for the peaceful settling of arguments about extremes and record performances in this record-breaking world in which we live."

Whether an argument is over the highest IQ ever ascribed to man (the answer is an IQ of 210), the longest time anyone has voluntarily remained motionless (4 1/2 hours) or the longest fasting from food (32 days), the Guinness book has an answer.

More than 5 million copies have been sold since the book was first brought out 15 years ago by Arthur Guinness, Son & Co., Dublin, Ireland.

Some of the more outstanding facts on record in the book are:

—On the index for Intelligence Quotients, 150 represents genius level. The quotients are immeasurably above a level of 200, but a figure of 210 is attributed to Kim Ung-Yong (born South, South Korea (born March 7, 1962).

—The longest that a man has voluntarily remained motionless is 4 1/2 hours by Ft. William A. Fugus of Ft. Worth, Texas.

—The longest period for which anyone has gone without food is 382 days by Angus Barbieri (born 1940) of Taysort, Fife, Scotland. He lived on tea, coffee, water and a hot water from June 1965 to July 1966 in a hospital in Scotland. His weight fell from 472 lbs. to 178 lbs.

—The highest priced skins are those of the mink-like cross-bred "mable" or "Kojah." A "Kojah" fur coat costing \$125,000 was sold by Neiman Marcus Co. of Dallas to actor, Richard Burton, for his wife, Liz Taylor, in May, 1970.

—The dog that sired the greatest number (recorded) of puppies was the greyhound "Low Pressure" owned by Mrs. Brona Anshurst of Waltham Cr.-us England. Up to November 27, 1969, he had fathered 2,414 registered puppies and at least 600 others unregistered.

—On September 21, 1968, a stagehand named Barry Burke at the Bayers Opera House (now the Palace Theatre), in Fort Worth, screwed in a light bulb. This longest burning bulb is still burning six years after Burke's death.

—The shortest English sentence containing all the 26 letters of the alphabet is "Jackdaws love my big splices of quarts"—with 31 letters.

—In terms of sales of single records, the most successful of all songwriters have been John Lennon and Paul McCartney of the Beatles. Between 1962 and 1968, they together wrote 40 songs which sold more than one million records each.

Now that the ordinance has been ordered, however, and enforcement of the ordinance will continue, city officials said.

TP&L Warns Of Phony Electrical Service Men Here

Texas Power & Light Co. today warned customers to beware of persons posing as TP&L employees who seek to make home electrical repairs for a fee.

Recently, customers in several sections of TP&L's service area have been bilked out of money by individuals misrepresenting themselves as TP&L "electrical inspectors."

The most common schemes of these persons involve inspecting for a short in house wiring; spraying the electric meter or completely rewiring the home.

In many instances no actual work is performed, but a subscription (on page two)

COUNTY BOND VOTE PROPOSED

First step on organization of a Howe countywide highway committee to recommend a date and program for a right-of-way bond election has been taken with return of names from various committees copied by June 23.

Grayson County Commissioners Court agreed to seek organization of a committee which will include one member from each of 11 smaller communities, two members from each of the four commissioner's precincts representing rural areas, and eight members each to be named by the Denison and Sherman Chambers of Commerce.

County Judge Les Tribble explained that the primary mission of the committee will be recommendation of possible dates for a bond election, possibly in August, and promoting it throughout the county.

Under a Texas Constitution change, only a simple majority will be required for approval of highway right-of-way bonds which failed in the county previously because of a

requirement for a two-thirds majority.

Judge Tribble estimated that the anticipated 20-year program being proposed to a current Urban Transportation Study committee would cost more than \$4 million to the county but bring \$70 million in highway construction from state and federal sources.

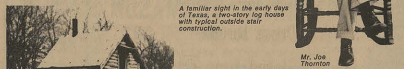

No study has been given just how large a bond issue would be feasible for Grayson County at this time. However, it was noted that extension of the program over 20 years would make it possible to vote bonds which would not be sold until later, thus holding down the amount of taxes necessary for their retirement.

The Urban Transportation Study committee has already approved plans for three major thoroughfares, Highway 75, Highway 82, and looping of Highway 147 east of Sherman and Denison.

Another meeting of the committee is expected soon to take action on improvement of several farm-market highways and location of new routes

TP&L Brochure Features Joe Thornton Hobbies

Editor's Note: The following pictures and information about Joe Thornton and his hobbies appeared in a brochure prepared by Texas Power & Light Company. The company uses "unusual hobbies" as part of the monthly publication.

Joe Thornton of Howe, Texas, finds great pleasure in creating things of the past. Thornton makes exquisitely detailed miniatures of pioneer homes, country stores and buggies.

Joe began his hobby as a boy, and says he pursues it today "to keep from playing dominoes." Joe also built a small "playhouse" in his back yard to serve as both workshop and retreat. Him and his wife when they wish to step back into the past for a few days. It contains no modern conveniences, but the kitchen is furnished with an old-fashioned cast iron wood stove which the Thomtons use every year to prepare their Christmas hams and turkeys.

Before retirement, Joe Thornton was blacksmith, carpenter and farmer. Born in Van Alstyne, Texas, in 1891, he has lived in the Howe-Van Alstyne area all his life.

stantial charge is made to the customer. In one case, money was stolen by the inspectors, and the awardees also collected a substantial fee from their victim.

TP&L officials emphasize that the company does not employ persons to make such electrical checks nor does it employ a customer wiring.

The company suggests that customers require identification of anyone representing himself as a TP&L service truck on the door.

The company also requests that if customers have any doubts about the identification of an alleged TP&L employee they should immediately call their local TP&L office.
