

## Howe's That

It is officially fantasy football season where we send out the reminder that no one other than you cares about your fantasy football team. For instance, if you come up to someone and talk about how you have Tom Brady and Dez Bryant, you have fallen upon deaf ears within you getting the third syllable from your lips. We're just trying to save you some of your precious air that you'll need in the final moments of your life.

Speaking of the NFL, one of our favorite friends from years ago, Amos Mazzant, who is a federal prosecutor in Sherman will get to hear the Ezekiel Elliott case tomorrow. Mazzant and I go back about 18 years as members of Sherman Kiwanis. If there was ever a true and honest man that can't be swayed from justice - it is my friend Amos. And now he's about to be "Famous Amos."

There seems to be a misconception about the game of football that any old big guy can be a candidate for a great football player. However, while that may help in some cases, it is what was displayed on Friday night that is the true catalyst for a great football player - speed and quickness. Some of Howe's greatest linemen in school history were kids that weighed under 180 pounds, but could out-man a 240 pounder because he got to him quicker. Speed can overcome a lot of mistakes whereas mass doesn't.

Now, if you want to talk about a huge guy with great speed and quickness - that's where everything changes with the big man. Big and slow = no. Little and fast = yes. Big and fast = big time player.

## Chamber cuts ribbon for Palio's Pizza Cafe

Owner Mo Samaha cuts the ribbon for Palio's Pizza Cafe on Tuesday night.

Howe's newest restaurant cut the ribbon at the Howe Area Chamber of Commerce event last Tuesday night. Mayor Jeff Stanley told Palio's owner Moe Samaha that the wait was well worth it and that restaurant has been a great thing for the City of Howe.

Samaha told the audience that Howe is the 45th Palio's store in North Texas and when he mentioned that he was putting one in Howe, his colleagues were shocked.

"They thought I was crazy," said Samaha. "But this has been wonderful. I wanted to bring a first-class restaurant to Howe and I want us to be a big part of this town."

Chamber board member LeAndra Beckemeyer and Howe EDC Director Monte Walker also gave welcoming words.

## Howe ISD releases bond info

The Howe ISD school board has voted unanimously to call a \$17 million bond election this November.

The decision to call the *Continued on page 13*

## Defending state champs too fast for Howe, 50-12

Ty Harvey leaps and grabs the first catch of freshman quarterback Cirby Coheley's high school career. *Michelle Carney/Howe Enterprise*

A team armed with good size, good athleticism, and good coaching can go a long way in high school football. But add dynamic speed to that combination and you have something entirely different - a state champion. The Gunter Tigers came into Bulldog Stadium Friday night as the undefeated defending Class 3A-Div II state champs and if their performance to open the season was any indication of something - it is that they have 15 more games to play in 2017.

The Howe Bulldogs, by all accounts will be a good football team this year, but the fans of the hometown team won't be able to truly get a glimpse of that until this coming Friday night at Bowie. Howe's 50-12 loss to Gunter on Friday was more about Gunter and less about Howe. But there were some good things that the Bulldogs can hold their heads high about as the defense forced two fumbles in the first half and two punts in the second half. It also appears that sophomore linebacker J.C. Helpenstell is ready to make a solid contribution on defense. Freshman quarterback Cirby Coheley seemed poised for his age and completed his first pass of this high school career in the first quarter.

Gunter won the coin toss and deferred to the second half as great teams normally do. Howe was forced to

## Fireworks Festival bonds kids with community

Patrons enjoyed the scene and the fireworks at the annual Howe Fireworks Festival put on by the Howe Fire Department. Vendors lined up on the Howe High School parking lot to sell items to the illumination enthusiasts. Kids were also able to get a hands-on feel of firetrucks and the older kids played football on the lawn.

*Michelle Carney/Howe Enterprise*

punt on their first three possessions. The highlight of the Howe offense early on was a 30-yard pass from Coheley to Ty Harvey for a first down near at the Howe 46 yard line.

Gunter's mega speedster Dylan Jantz raced 60 yards on the Tigers' third play from scrimmage for the first score. After a Daylan Bower 2-point conversion quarterback sneak, Gunter led, 8-0 with 9:32 remaining in the first.

The Tigers added their next score on a Jantz run that resembled a Tony Dorsett zig zag highlight show. Jantz ran across the field back and forth for approximately 70 yards for the official 26-yard touchdown. Gunter led 14-0 with 6:17 left in the first.

After Howe turned the ball over on downs, Gunter drove four plays and 72 yards capped off by a fullback trap with Zack Lowe carrying it over for the final 25 yards. Bower's 2-point conversion made the score 22-0 with :53 left in the first.

In the second quarter, Howe cornerback Chase Barnett picked up a loose ball and jetted to the Gunter 14 yard line. But Howe's scoring threat was ended on the first play when Coheley's pass in the endzone that was intercepted by Jantz.

Gunter took eight plays and 80

yards to score when Jantz crossed for the third time on a 1-yarder. Gunter led 30-0 with 4:09 left in the third.

The Tigers would score again before the half on an Ethan Everson 36-yard pass to Braiden Clopton to give Gunter a 36-0 halftime lead. The Tigers wasted no time getting the ball to start the second half by going nine plays and 64 yards to score on a 4-yarder by Lowe. Evan Gonzales' kick made it 43-0 with 8:18 remaining in the third.

Gunter's next possession was also nine plays and 60 yards finished off by a 6-yard score by Peyton Lowe. Gonzales' kick brought the score to 50-0 at the 2:15 mark in the third.

Howe put together an 8-play, 61-yard drive of their own in the fourth quarter. Dyan Moreau raced the final 15 yards for the score. Making a debut was the first female Bulldogs player, Calley Vick, who attempted the extra point, however, the kick was blocked on after a bad snap and hold. Gunter led 50-6 with 5:54 remaining in the contest.

Howe's final score of the night came with three minutes remaining when Mason Riggs raced 63 yards down the home sidelines. Vick's kick again was blocked due to the hold.

Coheley finished the night 4 for 14

# Bulldogs 4 Bulldogs formed

Shortly, throughout town you will see yard signs supporting the vote for the upcoming November bond election. This is due to an organization that has just formed called "Bulldogs 4 Bulldogs." The group is comprised of parents, teachers, and community leaders that have an interest in the school's future, the town's future, and the kids' future. The group has formed a Facebook page, Twitter account and an Instagram account to help get the word out to the community.

Sharla Ross has been elected chairman of the committee while Natalie Coleman will serve as

treasurer. The Bulldogs 4 Bulldogs invite you to make contributions to the organization in order fund items such as yard signs and other promotional items. Checks can be made to Bulldogs 4 Bulldogs. This is not a tax deductible donation.

Public meetings to discuss the proposed bond are scheduled for the following dates at the Howe Elementary/Middle School Cafeteria beginning at 7:00 p.m.: Tuesday September 5, Monday September 11, and Thursday September 21. Additional meetings may also be scheduled for October.

Yard sign that will soon be displayed throughout Howe of bond supporters.

# Hurricane Harvey makes impact on Grayson County Jail

Grayson County Sheriff Tom Watt

On Wednesday morning, Grayson County Sheriff Tom Watt announced in a press conference that the Sheriff's Office had been notified by the Texas Department of Criminal Justice (TDCJ) that they are currently closed to inmate transfers from county jail facilities due to Hurricane Harvey's impact. Weekly Grayson County sends eight to 10 inmates per week to the TDCJ facilities. This closure means that any inmates that were ordered to State Jail or TDCJ will remain that the county jail facilities until the TDCJ units reopen for transfers.

"As you can imagine here in Grayson County, if they (TDCJ) won't accept them, we have to hold them," said Sheriff Watt. "This morning at 6:58 am, our numbers were 410 inmates. We have a capacity of 440."

Sheriff Watt has asked local law enforcement agencies throughout the county to try to refrain from bringing offenders to the county facility if other alternatives are available. Captain Brian Ford, the jail administrator, explained a couple of the different options that the county is currently working on to maintain or reduce the number of inmates in the downtown detention facility. Some of those plans currently include to house more inmates at the Low Risk

Detention Center at the North Texas Regional Airport. Another option if this is a long-term situation is to ask judges to offer Personal Recognizance bonds to nonviolent offenders, work with probation/parole to schedule hearings in a more timely fashion or adjustments to credit for time served. A last resort was to house inmates in other facilities, which would cost the county \$50 a day per inmate housed in another facility.

"We manage our population as well as it can be done," said Sheriff Watt. "This is going to be a, I hope, a short-term impact on our county and all of our counties that are affected. I just want all of our law enforcement to understand that if you don't have to take somebody to our jail, I would prefer that you not."

Captain Brian Ford said that the facility currently has 15 to 20 individuals on parole waiting for hearings. That could be expedited to try and get the individuals reinstated to the public.

"My commitment to this community is that we will not release any violent offenders. That is not going to happen," said Watt. "What we're looking for is someone who is not violent, but just has trouble making good decisions and someone who is less harm to our community. Those are the kind of people that would be candidates for release."

The sheriff also stated that sending inmates to other county facilities is not a good option due to the \$50 per inmate the county would have to pay to another facility. Also, the other jails in nearby counties are facing the same overcrowding situations due to the same notice from TDJC.

**Howe History Minute:  
 Howe Enterprise  
 September 4, 1969**

GREETINGS -- Jeffrey Lee Hawkins, sizes up his teacher at the beginning of the 1969-70 term here Tuesday. Jeffrey is the son of Mr. and Mrs. Hugh B. Hawkins, 101 King, and the teacher, also a newcomer to the Howe system, is Mary Anderson.

**Record School Enrollment  
 Reached Tuesday--531**

School enrollment here Friday and Tuesday showed an 11% increase over average daily attendance at the close of school three months ago, Supt. Charles Thompson reported.

Enrollment through Tuesday totaled 531 students, compared to 479 at the close of the 1968-69 school year. Figures include 127 high school students and 404 grade school students.

Breakdown by grades is as follows: First, 53; Second, 56; Third, 53; Fourth, 45; Fifth, 52; Sixth, 48; Seventh, 48; Eighth, 49; Ninth, 37; Tenth, 37; Eleventh, 27; Twelfth, 25.

**Commissioners Accept Bid**

County Commissioners Tuesday accepted the low bid from Atlantic Richfield Company of Dallas for gasoline for the Sheriff's Office vehicles for the year beginning Sept. 1 at the rate of \$.1559 per gallon, excluding taxes. Atlantic Richfield is the producer of Sinclair gas. Other bidders included Texaco, Mobil and Gulf.

Tax rolls for the year were approved with the total tax valuation recorded at \$129,162,929.

The Court authorized payment for services rendered

## Asking for the gift of wisdom

**Dr. Billy Holland**

When I think about having wisdom, I am reminded of king Solomon. If you remember the popular story about David and Bathsheba, Solomon was their only son and also became king of Israel after David passed away. In I Kings chapter 3, we read that Solomon sincerely loved God and obeyed His laws. Verse 4 records him offering 1000 burnt offerings upon the altars at Gibeon and as the story continues we notice that something very special happens to him. “The Lord appeared to Solomon in a dream by night: and God said, ask whatever you want and I will give it to you.” We must admit this is a huge opportunity and temptation especially for a young person, which is why it’s so impressive when we hear his request. How would we respond if God offered to give us whatever we wanted? Money, fame, super-powers, long life? Amazingly, Solomon gives a very mature and humble response as he simply desires more wisdom and understanding so that he can be a good king. Verse 10 says that Solomon’s reply pleased the Lord and listen to this, “And God said unto him, because thou hast asked this thing, and has not asked for thyself long life; neither hast asked for riches for thyself, nor hast asked for the life of thine enemies; but has asked for understanding to discern judgment, behold I have done according to thy words.”

This is truly awesome, but the encounter does not end here. God

continues to declare that Solomon will not only become the wisest person in the history of the world but will also receive all the things he did not ask for like riches and honor beyond the imagination. Scholars say that Solomon wrote thousands of clever sayings and songs and we can read some of his brilliant writings in the books of Proverbs, The Song of Solomon and Ecclesiastes. However, we also know that when he became older, he made some critical mistakes as it seems that he allowed his wealth and authority to distract him from his original passion. It’s unfortunate that he strayed away from focusing on God’s commandments by carelessly allowing his wives to publicly worship their pagan idols which made God very angry. Solomon was just like everyone else in the fact that walking with God requires a strong personal commitment and is more serious than a casual religious lifestyle.

Since wisdom is such a wonderful attribute and it no doubt pleases God when His people ask for it, I wonder why we often forget to make this a high priority within our prayers? Discernment is associated with wisdom to help us know right from wrong, but its more than just collecting information. For example, becoming a contestant on Jeopardy might reveal that we have retained a lot of facts but it does not necessarily mean we are wise. It is said that knowledge is knowing about things but wisdom is the gift to understanding them. I believe we can all agree the desire to develop a deeper comprehension is a good path to consider and one that can transform what we do and who we are. One of the greatest discoveries is the realization that if a person can allow God to change their mind into His way of thinking, they can become the person He has called them to be. When Solomon relayed God’s truth in Proverbs 23:7, “for as a person thinks within their heart – so are they” he was revealing one of the most powerful life changing principals we can apply to our life. Arnold Bennett said, “Our mind is

a sacred enclosure into which nothing harmful can enter except by our permission.” Let us consider that the reason people are the way they are is because of the way they think. If we dwell on negative, critical and discouraging thoughts, we will be a wellspring of darkness and depression. However, if we think about forgiveness, compassion and humility, we will live in the contentment of God’s peace and joy. Through the

positive awareness of His presence, we can learn how to become sensitive to the influences that form our convictions. “Where there is love and wisdom there is neither fear nor ignorance” Francis of Assisi.

Dr. Georgia Caraway

sewer pipe was made.

Pottery manufacturing was a serious industry from the earliest times of Texas settlement. The weight of pottery churns, jugs, and other household utilitarian pottery prevented settlers from bringing pottery produced in the north and east in wagons to Texas. However, immigrant Texas potters brought their pottery-making skills with them. The Kirbee, the Wilson, and the Leopard potteries existed during the early years of the Republic. At least five potteries, Wilson, Lambert, Serran, and Cranston, and Roark were active in Denton County between 1855 and the 1880s. The Meyer Pottery in San Antonio was established in 1887 and remained active until 1964. Another early pottery was Marshall Pottery established in 1895. Marshall Pottery still remains in business.

Of course, there is plenty of fodder for Texas pottery collectors. Alamo pottery in San Antonio was created in 1944 and remained in business until the early 1950s. Gilmer Pottery began in 1951. Others include the Alabama Coushatta pottery in Livingston, Comanche pottery in Comanche, AthTex in Athens, and Love Field pottery of Dallas (1925-1950s).

Horton Ceramics of Eastland (1952-1954) was the predecessor to the House of Webster Ceramics in Eastland. House of Webster produces about 200,000 pieces of pottery per year to be used by the

House of Webster food gift company of Rogers, Arkansas. Dozens of pottery designs such as churns, telephones, apples, thimbles, and beehives are produced to contain their homemade preserves, apple butter, and honey.

Other known Texas potteries were Royal Leslie Pottery, Adah Art in Dallas Lone Star Ceramics, Harding Black, San Jose Mission Pottery in San Antonio (1940-1977) and successor to Mexican Arts and Crafts 1920-1940, Athens Pottery in Dallas (1914-1920), Ideal Pottery in Dallas (1922-1943), and Southern Pottery in Dallas.

You will find several examples of various Texas potteries at Howe Mercantile.

SPECIAL NOTE: Howe Mercantile will not be open on Wednesdays for the foreseeable

future. We experimented during the summer, but it is too difficult to schedule staffing that extra day. Perhaps we will be able to open more days during the holidays.

Dr. Georgia Caraway, and her friends, opened the Howe Mercantile at 107 East Haning in April 2015. Store hours are Thursday through Saturday noon until 8 p.m. We are excited to have Bucky's Farm All Natural Goat Milk Soap made in Howe for sale.

Georgia, former director of the Denton County Museums for 14 years, has written five Denton history books and hopes her next book will be the history of Howe. If anyone has photos that she can copy, please bring them to Howe Mercantile.

SHOP LOCAL. We can show you Howe!

One more mention about the backyard dig at Howe Mercantile. Last week I noted that the sewer pipe that was laid in the earliest days of Howe, when the sewage system was laid in the downtown area, was from the W. S. Dickey Clay Manufacturing Company. Research showed that the Dickey company had pottery manufacturing plants in Texarkana and San Antonio. I dug around the yard again last weekend and found a shard that had the letters "EXARK" impressed on it. So that solves the mystery of where the

## Texas History Minute

**Dr. Ken Bridges**

*Dr. Bridges is a Texas native, writer, and history professor. He can be reached at [drkenbridges@gmail.com](mailto:drkenbridges@gmail.com).*

It started as a quiet morning in September. It quickly became a nightmare. The horrors of September 11, 2001, are burned into the memories of Americans. As the nation approaches the fifteenth anniversary of the atrocity, communities across the United States pause to remember the lives lost. In addition to the losses shared by the entire nation, six Texans also lost their lives.

When the World Trade Center was dedicated in 1973, it was a marvel of modern architecture. The two main buildings, referred to simply 1 World Trade Center and 2 World Trade Center, stood at 1,368 and 1,362 feet respectively, and were the tallest buildings in the world. It redefined the skyline of New York City and attracted attention from across the globe. It also became the target of threats in the years before that terrible day. The Pentagon, located just outside Washington, DC, and the heart of America's defense command since 1943, was also targeted and struck.

Jimmy Nevill Storey of Katy, born in 1943, had been an executive visiting his company's office at the World Trade Center that morning. He was described as a doting father and grandfather. He loved reading mystery novels and history books. Michael Tinley was a 56-year-old Dallasite, also an executive. Those who knew him recalled how friendly he always was. Neither made it out of the building.

Barbara Olson was a Houston native born in 1955 and graduate of

S. P. Waltrip High School. She had attended the University of St. Thomas in Houston and received a law degree from Yeshiva University in New York. She had become a nationally known attorney and TV commentator before her death.

Daniel Martin Caballero was born in Houston in 1980. As a youth, he would often dismantle his electronic toys, and once in the navy, he became an Electronics Technician Third Class. Described as dedicated, he had worked at the Pentagon for two years, mostly arranging the equipment for videoconferences. Caballero had planned to return to Texas to visit family that following weekend.

Lt. Col. Karen Wagner, born in 1961, had spent her life in the army caring for others as part of the medical corps. Wagner grew up in a military family in San Antonio. In her position at the Pentagon, she helped organize where medical personnel would be stationed.

Lauren Catuzzi Grandcolas was born in Bloomington, Indiana, in 1963. She was raised in Houston and graduated from Stratford High School in Houston before attending the University of Texas. She had taken a number of jobs before becoming a marketing expert for Good Housekeeping and was working on a self-help book for women. In addition, she was three months pregnant with her first child. She was devoted to many charitable causes, trying to help others. She was returning from her grandmother's funeral when she boarded United Airlines Flight 93. She worked with other passengers in an attempt to retake the airliner, taking time to call her husband on the ground.

Passengers were able to retake the plane just as it was crashed into a quiet field in Pennsylvania. Since her passing, her family has established a scholarship in her honor at Stratford High School and a foundation to provide money for different charities.

The memories of the nation of that

terrible day are filled with the reminders of fear but also of the courage that kept more lives from being lost. Memorials across the nation give testimony to not only what was lost but to the unbreakable spirit of a heartbroken

America. They also remind us of a strength that comes as grief transforms itself to rebuilding, a strength that has guided America through an often difficult history. That strength is called hope.

### Bulldogs

*Continued from page 2*

passing with 74 yards and two interceptions. In comparison, Howe threw 12 passes in all of non-district play in 2016.

Riggs was the leading rusher with 67 yards on five carries. Moreau had 10 carries for 35 yards. Each scored a touchdown.

Ty Harvey led the Howe receivers with two catches for 39 yards while Devin Porter hauled in 35 yards on two receptions.

Gunter's 50 points was the most any Howe team has allowed on an opening night since 1992 when Van Alstyne beat Howe 71-20 at Bulldog Stadium to open the season.

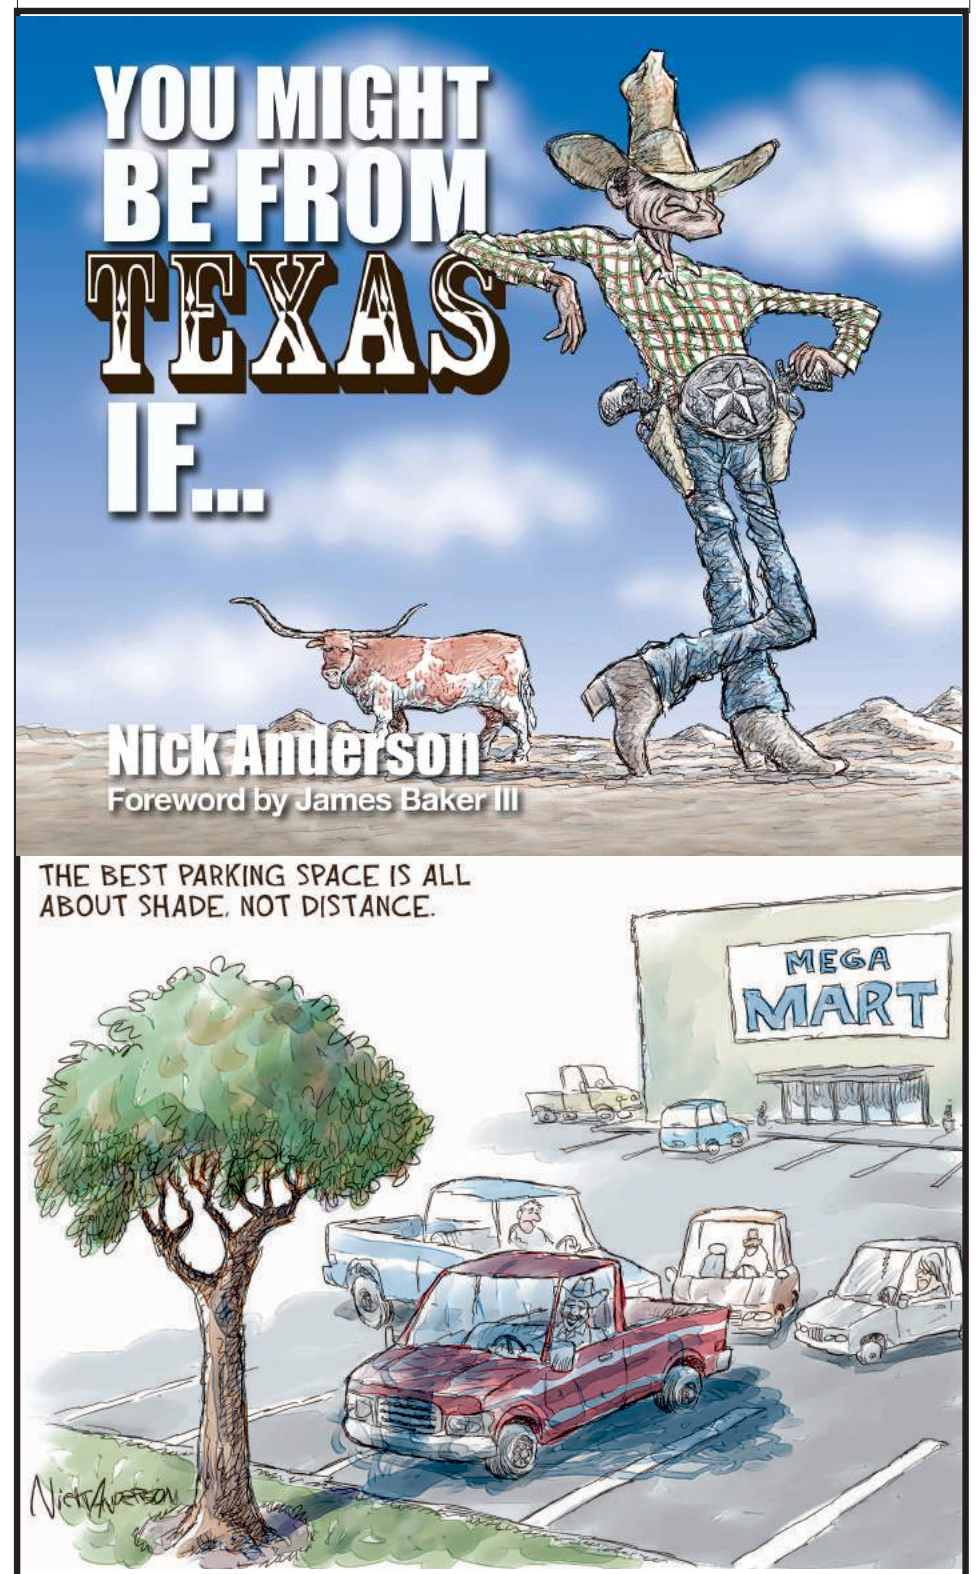

Howe's 12 points scored was the

least amount scored in a season opener since 2013 when Howe scored eight at Lindsay.

Howe will travel to Bowie on Friday night to face the Jackrabbits who lost at Aubrey, 45-0 on Friday night. A year ago, Howe beat Bowie at home, 38-13 in the first ever matchup between the two schools.

The game will start at 7:30 pm at Jackrabbit Stadium located at 341 US Hwy 287, Bowie, Texas 76230.

The game will be broadcast live on [howenterprise.com](http://howenterprise.com) Friday starting at 7pm with a pre-game show. Spectators at the game can listen to the broadcast on 90.3 FM. The radio frequency is only available inside the stadium.

## Howe fifth and sixth grade Bulldogs win 40-0 over Whitewright

**Howe's defensive end Cooper Jones brings down the Whitewright quarterback in the backfield on Saturday at Bulldog Stadium.**

*Photo by Jennifer Daniels.*

The Howe fifth and sixth grade Bulldogs completely manhandled the Whitewright Tigers from start to finish on Saturday at Bulldog Stadium.

The scoring barrage started when Jacob "Clyde" Campbell returned a punt 35 yards for a touchdown. Braden Ulmer ran the extra point to give Howe a 7-0 lead.

Crawford Beebe recovered an onside kick and Howe quickly went one play and 51 yards on a pass and catch from Campbell to Cooper Jones. Parker Daniels ran in the extra point to extend Howe's lead to 14-0.

Ulmer added a 31-yard touchdown with 1:21 left in the first quarter and a 20-0 Howe lead. On the first play of the second quarter, Gage Troxtell scampered 25 yards for another Bulldog touchdown. Kolin Murphy ran in the extra point to extend the Bulldogs' lead to 27-0.

Ulmer later ran 76 yards for a score,

but a blocking infraction nullified the tally and Howe took the 27-0 lead to halftime.

The 'dogs with 31 players on the roster made sure everyone had ample playing time during the second half and even in the first half. Ashton Tevino ran the second half kickoff back to the Whitewright 17 yard line which set up a 17-yard Daniels touchdown. Garren Lankford ran the extra point to extend Howe's lead to 34-0.

Noah Riley added Howe's final touchdown with a 20-yarder. The extra point run was unsuccessful which left the final score, 40-0.

Howe will have a big test this Saturday with a matchup with Blue Ridge who is also 2-0. The game will be played in Trenton at 9 am.

Howe has now scored 82 points and has yet to allow a point. Blue Ridge, facing the same two opponents are at 62-0.

## Howe K-2nd grade Bulldogs lose to Collinsville, 18-7

**Samantha Fuhr about to take the handoff. Submitted photo.**

Howe and Collinsville faced off in a battle of unbeaten teams Saturday. Collinsville scored on their opening drive, but Howe answered quickly as Deacon Bender scampered in for the score. Samantha Fuhr added the extra point on a run. But those seven points were all that Howe could muster as Collinsville went on for an 18-7 victory.

Howe takes their 1-1 record to Whitewright next week to face Tom Bean.

The third and fourth grade Bulldogs lost their opener a week ago to Blue Ridge, 6-0 and had a bye week this Saturday. The third and fourth will play Whitewright at Tom Bean on Saturday at 10:30 am.

## Howe Chamber holds breakfast at Independent Bank

**Chamber President Robert Cannaday, Mayor Jeff Stanley, and County Commissioner Jeff Whitmire.**

Around twenty or so showed up for the Howe Area Chamber of Commerce breakfast held at Independent Bank on Friday morning. Those in attendance included Grayson County Judge Bill Magers, Grayson County Commissioner Jeff Whitmire, Howe Mayor Jeff Stanley, City

Administrator Joe Shephard, and Howe Police Chief Matt Whitworth.

Chamber President Robert Cannaday wants to thank Independent Bank for hosting the event.

## HMS to hold cookout for first responders and spouses

The Howe Middle School and the HMS Student Council would like to invite first responders (and spouses) to a cookout lunch on Monday, September 11 from 11:30 to 1:30 at the HMS cafeteria.

Law enforcement, fire & safety protection and EMTs are all

welcome to attend. HMS Principal Clay Wilson asks you to please share this information to any first responders you know. Please contact Howe Middle School at 903-532-3286 to RSVP (RSVP not required but helpful for planning purposes).

# Local fuel distributor says gas shortages caused by panic, not outage

Consumers of fuel lined the gas stations last week as there was a panic over rumors of fuel shortages.

Douglass Distributing and Lone Star Food Stores sent a press release to the Sherman Chamber of Commerce on Thursday to educate the public on the current fuel shortage in the area. They say the shortage is a result of a southern refinery shutting down temporarily during the storms of Hurricane Harvey. In a written statement, Brad Douglass, CEO of Douglass Distributing said that he wanted everyone to know that they still have access to plenty of fuel. The lines that our delivery trucks are waiting in are just much longer because of the refinery shut down.

"We want everyone to know that we still have access to plenty of fuel – the lines that our delivery trucks are waiting in are just much longer because of the refinery shut down," said Brad Douglass in a release to the Sherman Chamber of

Commerce.

Douglass says that there is not an outage. There is fuel, but each delivery is just taking longer at the moment.

"We want to assure everyone that we have all of our delivery trucks out running 24 hours resupplying our local communities in Northeast Texas and South Eastern Oklahoma," said Douglass. "We ask all of our neighbors make fuel purchases as you normally would – the worst thing we can do as a community is all of us showing up at one time to get fuel. This is creating an additional challenge for each delivery. If the community reacts that way, we may cause the outage at an individual location. We do not expect the shortage to last any longer than one week."

# Bond info

*Continued from page 1*

election was based off a recommendation from a Facilities Planning Committee comprised of parents, staff members and other district stakeholders. According to district projections, Howe ISD is expected to grow by 800 students in 10 years. The district's elementary and middle schools are projected to be over capacity by the 2018-19 school year.

The \$17 million bond proposal includes the construction of phase I of a new elementary school with a capacity of 400 students. The preliminary plan is for this new campus to house grades Pre-K, kindergarten, first grade and second grades. As our enrollment continues to grow, we intend to construct Phase II to complete the Pre-K through fifth grade campus. At that point in time, we will have two Pre-K through fifth grade elementary schools in order to

accommodate the district's enrollment growth.

If the bond is approved, taxpayers would see a tax rate increase of 22 cents beginning in 2018, which would result in an annual increase of approximately \$286 on a \$150,000 home.

Public meetings to discuss the proposed bond are scheduled for the following dates at the Howe Elementary/Middle School Cafeteria beginning at 7:00 p.m.: Tuesday September 5, Monday September 11, and Thursday September 21. Additional meetings may also be scheduled for October.

Election Day is set for Tuesday, Nov. 7, and early voting runs from Oct. 23 through Nov. 3. For more information about the bond proposal, go to [www.howeisd.net](http://www.howeisd.net).

# Chamber sets town hall meeting for school bond Q&A

The Howe Area Chamber of Commerce will host a "Town Hall" style meeting on Oct. 10 at 7:30 pm at the chamber office in downtown. Members of the political action committee will give information about the upcoming election and will be there to answer questions regarding the bond, and how the Community Facilities Committee derived to the conclusion of the

option that has been put in place before the public.

Superintendent Kevin Wilson will also be available to give facts regarding the school and answer questions that may arise. Wilson, as superintendent is now allowed to be a spokesperson in favor for the bond, but can give factual information about the status of the schools.

# Howe Elementary Top Dogs

The Howe Messenger

VOLUME XVII HOWE, GRAYSON COUNTY, TEXAS, FRIDAY, AUGUST 30, 1940 NUMBER 31

I Give You Texas

By BOYCE HOUSE

What is a Hollywood "story conference" like?

Well, "Boom Town" conferences were held in Sam Zimbalist's office, the producer presiding behind his big mahogany desk.

But weren't ready to start yet. Conway would begin squirming again and, in a querulous voice, would ask, "Sam, doesn't it seem cold in here to you?"

"Mr. Conway, your chair is right in front of the opening that admits all the cool air into the room; if you would move your chair to one side—"

And then we were ready to begin.

"Well, what did you think about Saturday's game?" Zimbalist would ask the technical adviser and I would oblige with a fine exhibition of broken field, Monday morning quarterbacking.

With these important matters out of the way, we were ready to talk about the story. The Chesterfield Zimbalist, only a time or two, ever got stirred sufficiently to rise to his feet and then he would walk rapidly while crossing and re-crossing the room in long strides.

Say, for example, it was a quarrel between Big John and Square John, the two principal characters of "Boom Town", to be played respectively by Clark Gable and Spencer Tracy.

By Mame Roberts

If I knew you and you knew me... If both could clearly see... And with an inner sight divine...

ALINE HAZILIP THOMPSON

WOULD so live as if I knew that I had received my being only for the benefit of others—Seneca.

The life of Aline Hazilip Thompson seems to be only for the benefit of others. She never has time to think of herself.

Her first responsibility is being a mother to two fine, happy, healthy youngsters, Dorothy and Mike. Her second responsibility is making a home, and last but not least, she is school librarian.

If any one thinks that the Howe school librarian has nothing much to do they should watch Aline at work. Besides knowing her library of more than a thousand volumes to be able to serve the school and public with speed and efficiency...

UNDER THE Dome at Austin

By GORDON K. SHEARER United Press Staff Correspondent

Austin—Texas will end another fiscal year this week. State appropriations and state accounts run from September 1, to August 31.

Appropriations are made by the legislature for two years at a time, but the appropriation is divided so that the amount to be expended the first year is separated from that appropriated for the second year.

As a result state departments and institutions are checking up this week to see how they will come out. Some of them have found themselves in a peculiar position. For instance, one of the departments has issued orders for materials authorized in the first year appropriation.

What to do in such a situation proved so puzzling that Attorney General Gerald C. Mann was asked to rule upon it. His decision was that in general appropriation must be expended in the year specified, but if the appropriation is for machines, fixtures and books not consumed during any one year the purchase may be made out of the appropriation for either year of the biennium.

Appropriations for employment of help are held strictly to the fiscal year for which they are made by the legislature. If the material purchased becomes a part of the capital assets of the department, the more liberal rule is applied.

The Secretary of State's office has begun official publication of the proposed amendments to the state constitution upon which voters are to express their views at the general election on November 5. There are four such proposals. One, if adopted, will authorize the Secretary of State to appoint notaries public.

The meeting of the state welfare board scheduled for September 4 will be of special interest to old age pensioners.

Final payment is to be made by the board next month on the \$2,230,000 emergency debt created by borrowing money from Dallas bankers to continue pension payments.

Under instruction of the last legislature \$200,000 of the money normally going to the welfare board for pension payments each month, has been applied on retirement of the debt. The final installment is \$180,000.

When these payments were begun the board ordered a horizontal slash of \$6 in previous pension payments. Now there is little hope that the entire \$6 will be returned.

How much will be added to August's average payment of \$10.86 will not be determined until it is known just what the federal matching agency will consider "need."

The last Texas legislature instructed the board not to consider ability of relatives to contribute to support of a pensioner in computing his need. Rolls currently have about 120,000 names.

Miss Frances Goff of Kenedy is new receptionist for Gov. W. Lee O'Daniel's office. The pretty girl is not a stranger about the state capitol. She was a house representative stenographer in the 43rd and 46th legislatures, and was a stenographic work in the governor's office as well as re-

State Schools to Teach Democracy

Austin—(UP)—The Texas state board of education voted this month to fight un-American propaganda with enlarged courses in American government in the public schools.

Five text-books on American democracy now are furnished free to the 1,500,000 children of high school age in the state. The board has called on book publishers to submit suitable text books for the seventh, eighth and ninth grade pupils, also.

Board Chairman, James G. Strong of Carthage said he would like to have Democracy taught in all the school grades. "I would like to have a pre-primer on it, if one is available," Strong told the board members.

Besides ordering the additional texts on Democracy the board increased the quota of library copies of a book on "Democracy in Action" that is supplied to the schools for use in their libraries. The board ordered that two copies at least be furnished to each school. Schools with more than 50 pupils are to be supplied a copy for each 25 pupils and major fraction of 25 pupils.

The Secretary of State's office has begun official publication of the proposed amendments to the state constitution upon which voters are to express their views at the general election on November 5. There are four such proposals. One, if adopted, will authorize the Secretary of State to appoint notaries public.

Food Locker Plant Nearing Completion

The Grayson County Frozen Food and Locker company is rushing to completion its new, modern plant at the corner of West Lamar and Elm streets in Sherman and expects to be open for business Saturday, September 14, Nolan D. Jackson, manager, said this week.

The plant is new in its entirety and will provide complete meat curing facilities, regardless of the type of curing desired. A cutting and processing room is also included in the plant. Custom butchering will be done for those desiring such service.

The plant makes possible butchering in any kind of weather. The carcasses are hung in a chilling room to remove animal heat, then cut by an expert butcher, labeled, quick-frozen and stored in individual lockers. The lockers have a capacity of from 250 to 300 pounds.

Fruits and vegetables can also be frozen and stored in the lockers.

AN OLD RULE WITH A NEW TWIST

Fort Worth—(UP)—Two middle-aged men stole a wheel from W. G. Baxter's auto trailer. When Baxter found it missing, he went to a garage to borrow a jack. He came back and found the men trying to get another wheel.

Now the men are telling other prisoners: "If you do succeed, don't try, try again."

Edwin and Edward Luper are visiting relatives and friends in Tennessee and Georgia this week.

FOOTBALL PRACTICE TO START MONDAY

Wesley Cox, new athletic coach at Howe high school, announces that he will begin fall practice Monday. He requests that all who expect to play this fall report to him Monday if possible.

PILOT GROVE MAN BRINGS IN FIRST BALE

O. J. Mears of Pilot Grove had the honor of ginning the first bale of the 1490 cotton crop at Howe, bringing in the bale about noon Monday. It was reported that he had previously won first bale honors at Whitewright. The Howe Gin company ginned and wrapped the bale free of charge.

Air Cadets Show Little Fear

Editor's Note—This is the last of two articles describing cadet life under the U. S. Army's new air expansion program.

By Arnold Dibble United Press Staff Correspondent: Hicks Field, Near Fort Worth—"Dodoes" of 1940 face army flying training with little fear.

The single thought that hums through the minds of this generation's cadets as they step up to their training ships is: "I hope I can do better today than I did yesterday."

In 1917-18 at this field—then Tallaferro—fliers started the day with the viewpoint that they'd "be lucky if the baling wire holds this packing crate together." Fatalities were numerous then, mostly because of mechanical trouble.

All that has changed. Men who answered the call for air volunteers in 1940 grew up with airplanes. They consider the airways the safest mode of travel.

Learning to fly is but a small part of cadet training. They spend less than 50 minutes a day in the air. Students loll about the flying field gathering informal ground school pointers from civilian instructors, or meet in classrooms where the theory of flying and its military uses are taught.

Instructors say that the hardest thing to drill into "dodoes" is relaxation and rhythm. Flying, they say, is largely a matter of rhythm. They compare it with driving an automobile. A person learning to drive, they illustrate, will let out the clutch rapidly and feed too much gas to send the car into jerky motion.

"The same with a young flier," says Boyd Kennedy. "You've got to teach them to relax and to fly with rhythm."

New recruits—all college men—find that they enrolled in no easy course. Their day starts at 5:50 in the morning and keeps them "on the trot" until "lights out" at 9:50 in the evening.

Only 20 minutes of drill spots the day. Hot afternoons find cadets at their most grueling stage. From 1:00 to 5:00 p. m. students remain in class rooms studying hygiene, meteorology, mathematics, and maps. After dinner and a short recreational period they study from 7:30 until 9:50. Mornings are spent at the flying field.

New cadets will spend 10 weeks training here. If they pass, they go to Randolph Field, San Antonio, for another 10 weeks and on for another 10 at Kelly where they graduate as second lieutenants in the U. S. army air corps.

Fairchild PT-19 planes are used for training—one ship for every three students. Beginners' course, here includes 65 hours of flying instruction and 140 hours of ground school including 25 hours of laboratory work on motors.

L. C. Carter and family of Whitesboro visited in Howe Sunday.

Miss Pauline Walvis of near Mc. Kinney visited friends here Saturday.

EARL RICH NOW PRIVATE FIRST CLASS

Earl Rich, son of Mr. and Mrs. John Rich, who joined the marines in May and has been stationed at San Diego, California, writes that he has recently received his first rating and is now private first class, and that he hopes to make it corporal soon.

George Home Is Wedding Setting

Mrs. Clifton Horton

Miss Lula Mae George, daughter of Mr. and Mrs. J. C. George and Clifton Horton, son of Mr. and Mrs. Jot Horton of Sherman were married at 2:30 p. m. Sunday at the home of the bride's parents. Rev. Claud Johnston, pastor of the North Park Baptist church of Sherman, read the double ring ceremony before an improvised altar.

Attendants were Miss Johnnie Lee George, sister of the bride and Eugene Horton, brother of the groom. Mr. George gave his daughter in marriage. Her dress was of imported lace over white satin and she wore a pearl head band.

Only members of the two families and a few close friends were present. The house was decorated with ferns and with peach and white gladioli.

At a reception following the ceremony, the bride cut a three-tiered wedding cake which centered the lace-covered table. Mrs. Dan Scott of Tom Bean, sister of the bride, presided at the punch bowl while another sister, Mrs. Ralph Davis of Burkburnett, assisted in serving.

After a short wedding trip, the couple will be at home at 211 North Lee in Sherman. The bride's going-away suit was black with black and white accessories. The bridegroom is employed at the Talley funeral home in Sherman.

Outline Procedure On Cotton Loans

The 1940-41 government cotton loan plan is somewhat different from that of previous years, according to information received this week. Producers desiring to take the loan must follow the procedure outlined below.

- 1. Cotton must be placed in an approved and bonded warehouse.
2. The warehouse must cut samples on the cotton and send them to the government, classing office in Dallas.
3. The classing office sends a class sheet on this cotton back to the warehouse.
4. The warehouse then fills out the cotton note.
5. The producer takes this note to the bank and obtains the money on his cotton.

Mr. and Mrs. W. A. O'Briant of Crandall, and Mr. and Mrs. Walter Wicliffe of Ferris spent the week end with Mr. and Mrs. Frank Jeter.

12,000 Votes Cast In Run-off

Voters of Grayson county upset all predictions Saturday and turned out 12,000 strong to cast their ballots. Due to the fact that there were only two state races and four county races to be settled in the run-off, it was general opinion that not more than 8,500 votes would be cast. The district attorney race proved to be the most popular, 11,990 votes being tabulated in this race, while 11,429 were cast for representative place two.

Ralph Elliott was elected district attorney by the overwhelming vote of 7,109 to 4,881 for Rey G. Baker, a majority of 2,228. Baker led Elliott in the first primary by 802 votes.

Roger Q. Evans increased his first primary lead over J. H. Waggoner for representative place one to win 6,437 to 5,277, a majority of 1,160 votes.

M. B. Morgan, who lacked 42 votes of receiving a majority over two opponents in the July primary defeated Chas. H. Hagler 7,160 to 4,269, in the race for representative place two, a majority of 2,891.

C. H. Barrett, who held an 1100 vote lead over Grady Thompson for county clerk in the first primary, was defeated 4,931 to 6,370. Thompson's majority was 2,039.

Results for the Howe and Tom Bean boxes are as follows:

Table with columns: Candidate, Howe, Tom Bean. Rows include Rep. Place 1 (Evans 82, Waggoner 61), Rep. Place 2 (Morgan 95, Hagler 40), District Attorney (Elliott 110, Baker 41), County Clerk (Barrett 25, Thompson 120).

Brooks was choice of Grayson county voters for railroad commissioner, and Lattimore for supreme court justice, but both lost in the state-wide returns.

Denison Boosters Here Tuesday

A group of Denison business men were here Tuesday advertising the Labor Day celebration to be held there Monday. The Denison high school band was with the group and played several numbers while here.

The celebration will begin with a parade at 10 a. m., for which \$180 in prizes will be paid for floats and bands taking part. Special permission has been obtained to visit the Denison Dam, visitors being allowed to go down into the dam site proper from 1 to 4 p. m. Dr. Edwin Alexander Elliot of Fort Worth and Judge Tom Suggs of Denison will speak at Forest park at 8 p. m. A fireworks display will be given at the park at 9 p. m. and street dancing will begin on the 400 block of West Crawford street at 10 p. m.

WALDEN NAMED COACH TULLIA SCHOOL

Mr. and Mrs. Leslie Walden left this morning for Tullia where he has accepted a position as athletic coach in the high school. He had previously been elected coach at Celina, but accepted the Tullia position.

Walden coached here for the past two years.

CLASS HAS SWIMMING PICNIC AT SHERMAN PARK

Edwin Poindexter was host to last year's seventh grade class with a picnic and swimming party at the Houston street park in Sherman Wednesday night.

Mr. and Mrs. Russell W. Bryant, Ruth and Helen Bryant, Miss Josephine Davis, C. D. Powell and Rev. Leon England were guests of Mr. and Mrs. Ernest McBea Sunday afternoon.

HOWE, GRAYSON COUNTY, TEXAS, THURSDAY, AUGUST 31, 1967

NUMBER EIGHT

## HOWE'S THAT ?

Entering college?

Several area graduates are, and we would like to have their names and the college, university, school or whatever. Everyone is interested in who is going where. Also, we would like to have as many names and addresses as possible of men in service from this area.

o-o-o-o

Don't know what Howe's new dentist, Dr. Ned Culp, has for attracting business, but if the letters, poems, and phone calls continue here, we're going to take our dentures down to have a couple of teeth extracted and try to find out.

This week's correspondence is in the form of a poem. It follows:

"There's a certain dentist,  
We'll call Dr. Ned  
In last week's paper  
You read what it said.  
But to me Dentists  
Are somewhat the same.  
If something goes wrong,  
They're not to blame.  
You didn't eat the right food,  
Or drink the right juice.  
If it bleeds too much,  
You let the cotton loose.  
You just can't beat them,  
So why do we try,  
A good dentist is something  
You just can't buy.  
Judy Robison"

o-o-o-o

If anyone wrote to Eugene White and used the address published last week, he probably won't receive the mail.

Everything was correct except the zip. Instead of 76622, it should be 96622.

o-o-o-o

Any man who thinks he is going to be happy and prosperous by letting the government take care of him should take a close look at the American Indian.

o-o-o-o

Lowell Thompson displayed a collection of pennies and nickels last Friday night at the Texomaland Coin Club meeting at the Denison Chamber of Commerce.

Thompson's collection is complete and contains such rarities as an 1877 cent, valued at \$500, the 1909-S VDB, valued at \$200 and a 1922 plain, also valued at about \$200.

However, the 1913 libertyhead nickel is not included in his collection. Only five are known to exist, and one recently sold for \$46,000 at the American Numismatic Association convention at Miami Beach.

## Council Approves Lone Star Gas Rate Increase

A slight increase in gas rates proposed earlier this month by Lone Star Gas Company was approved at a called meeting of City Council Tuesday night.

The increase raises the minimum monthly bill from \$1.00 to \$1.50 and will cost users above the minimum 24 cents more than if figured by the old rates.

In other words, if a monthly bill is more than the minimum, increase will amount to only 24 cents, regardless of amount of gas used.

Council discussed the proposal at length before approving the measure, with Councilman Overton Jay voting against the increase.

An electrical code prepared by Mayor Doug Wortham was presented for consideration by council members. It was determined, however, that the city already had an electrical code, but that the code was not being enforced. No action was taken on either.

The possibility of a new house being constructed on an alley was discussed after Mayor Wortham told council members that a citizen had asked about the construction site. City Manager Cannon George was requested to check the site in question.

In other city business, council was in favor of employing a city marshal and a city judge if financing for the project could be assured.

The problem of local law enforcement had been discussed before, and was renewed following requests from citizens and complaints.

A questionnaire prepared by Mayor Wortham is reproduced below, in an effort to secure the thoughts of taxpayers on the proposal.

Interested citizens are asked to fill out the form and mail it to city hall.

## STRAW VOTE BALLOT

Do you favor the City of Howe hiring a police officer?

Yes ( ) No ( )

If so, what method do you favor for financing:

Additional Taxes ..... Yes ( ) No ( )

Add on to water bills ..... Yes ( ) No ( )

Businesses pay flat rate ..... Yes ( ) No ( )

Please complete, and mail to The City of Howe

## PLANS APPROVED FOR CLASSROOMS, GYM

### School Student Registrations Slated Friday

Student registrations are slated Friday, September 1, with first day of classroom work Tuesday, September 5, following Labor Day holiday.

Parents are to be present for registration of first grade students.

A general faculty meeting is to be held at 9 o'clock this morning (Thursday).

### SCHOOL CALENDAR

August 31, faculty meeting at 9:00 a.m.

September 1, registration of all pupils.

September 5, first day of classes.

October 13, end first six-week period. (29 days)

November 23 and 24, Thanksgiving holidays.

November 24, end second six-week period (28 days)

December 22, dismiss for Christmas holidays, 2:40 p.m.

January 2, resume classes.

January 11 and 12, mid-term tests.

January 12, end third six-week period. (29 days)

January 12, end first semester, (86 days)

January 15, second semester begins.

February 23, end fourth six-week period (30 days)

April 5, end fifth six-week period (30 days)

April 12 and 15, Easter holidays.

May 19, Baccalaureate

May 21, Commencement

May 21 and 22, final exams.

May 22, end sixth six-week period (31 days).

May 22, end semester; total days of instruction, 177.

May 24, close school, hand out cards.

### Scrimmage Game Set With Sherman B Team Tonight

Another scrimmage game is scheduled tonight between the Howe Bulldogs and Sherman's B. team. First regular game of the new season will feature the Bulldogs against Bells here Saturday night, September 9.

Although the team came out on top in the statistics against Collinsville, the contest may prove to have been a costly one.

Coach Norman Dickey said this week that Quarterback Bill Cloud may be out of the lineup the remainder of the season as a result of a leg injury suffered in the scrimmage game. However, extent of the injury had not been definitely determined earlier this week.

### Kindergarten Classes Begin September 6

Children who will be five years of age before today (September 1, are eligible to enroll in kindergarten, to be held at First Baptist Church. First day of class for the youngsters is Wednesday, September 6.

The kindergarten will meet accreditation standards and will cooperate with the public school system. Mrs. Bill Hindman is teacher.

Hours will be from 8:30 a.m. until 11:30, Monday through Friday, and holidays will be the same as regular school holidays. Also, health requirements, immunization shots, etc. will be the same as public school.

Cost has been established at \$15.00 for registration with tuition fees of \$15.00 monthly, which will cover all expenses such as paper, pencils, colors, and other materials.

### Rebecca Franklin Is Honor Graduate

Rebecca Ann Franklin, Howe, was among 34 senior honor graduates receiving degrees in summer commencement at N. Texas State University Thursday night.

Of 623 bachelor's degree recipients, five graduated with high honors and 29 with honors. The university also awarded 465 master's degrees and 19 doctor's.

Miss Franklin, graduating with honors, received the bachelor of science degree in elementary education. She is a 1963 graduate of Howe High School.

Architect's plans for six additional elementary classrooms were approved Tuesday night by Howe school board. Also approved were plans for a dining area and a new gymnasium.

The board's Architect, Jay Lowe Chapman, was authorized to advertise for bids on the elementary unit and the gymnasium. Bids are to be opened October 2.

In a follow-up motion, board members voted to sell \$257,000 worth of bonds, on October 16.

The classrooms, when completed, will relieve the overcrowded conditions at the elementary school, at least for a time. Classes will be held in the gymnasium, on stage and in the library and science department when school resumes next week.

Splitting of the first six elementary grades is necessary this year, due to increased enrollment.

Additional faculty members, omitted in last week's report, are Mrs. Francine Hickox, librarian; Mrs. Iva Holcomb, teaching aid; Mrs. Charles Winfield, music, and Doug Wortham, counselor.

Budget for the forthcoming year was also approved during the called meeting, in the amount of \$488,711. Of this figure, \$261,730 is designated for new buildings and building sites. A summary of the budget is as follows:

Salaries, \$150,750; teaching supplies, library, visual aids, and contracted services, \$9,700; pupil transportation, \$13,730; operation and maintenance of plant, \$11,910; insurance, \$1,000; food services, \$600; capital outlay (new buildings and sites), \$261,000; debt service (retirement of bonds, etc.) \$39,946; total, \$488,711.

## TB X-Ray Unit To Be In Howe September 25

Dallas Area TB Association Mobile Unit will be in Howe, September 25, from 2 until 7 p.m., the Association announced this week.

The Association is seeking two local volunteers for clerical duty, in two to three hour shifts to assist in recording information.

Volunteers may contact the Howe Chamber of Commerce.

## The Howe Enterprise

THE HOWE ENTERPRISE, THURSDAY, AUGUST 31, 1972--VOLUME IX--No. 8

No earthly idea where Ray Houston dug it up, or if it's a repossession, donation, instigation, or what, but that genuine casket on display at Howe State Bank the past few days is for real.

And it has caused a few people to take a second, and third look. After all, it's not every day that you stroll into a bank with the anticipation of obtaining a 4% loan, and come face to face with a casket.

Chamber of Commerce members were as startled last Thursday night, when the thing first made its appearance, with Joe King and J. W. Ham as pallbearers, walked past the bank door and deposited the "box" on the sidewalk.

Actually, it's a form Ray has chosen to dispose of his and other razors during the beard growing contest for the Howe Centennial, which is almost upon us.

Anyway, all the girls over at the money store grew more nervous as the week dragged on and come Tuesday afternoon, five or six of them totted the casket about half way up the block, which happened to be in front of our building, and "deposited" the thing with us, which was all unnecessary, uncalled for, understandable and unbearable.

The thing is currently on display in an heretofore vacant building, or was, the last time we checked.

+++++++  
Fourteen lashes with a wet noodle, again.

Last week we "assumed" a bit, which is against the law in the business, because if you do that ain't the way it is.

Cutlines under our picture of the majorettes contained the statement, after identifying the girls, that the majorettes would "Lead the drill team onto the field during football games," which has been a tradition for about 480 years. Taint so this year, according to further information.

The girls this year will tippie toe onto the field, twirl a dab, and tippie toe off again.

The drill team has to find its own way onto the field.

This week we're printing a photo of the cheerleaders, and also didn't substantiate their duties, but, supposedly, they'll lead cheers.

+++++++  
Quote from a College Professor:

There is little doubt that the human brain is by far the most perfect computer. It has several billion circuits, it can operate four hours on the energy of a single peanut, it is completely mobile; it occupies less than a cubic foot of space; and probably best of all, it is produced by unskilled labor.

### Local PO Changes Announced

Area Mail Processing--the newest innovation of the United States Postal Service will begin at the Howe Post Office and its neighboring post office on Saturday, Sept. 2.

Beginning on that date, outgoing mail from the Howe Post Office and neighboring offices will be brought to the Dallas Mail Processing Center for processing and distribution.

Carl C. Ulsaker, Regional Postmaster General, Southern Region, Memphis, Tenn., said "Area Mail Processing is intended to speed the ultimate delivery of mail and to gain maximum efficiency and economy through full utilization of Dallas' mechanized post office."

Howe Postmaster James David said residents of Howe and other neighboring communities will continue to use their same five digit ZIP Code on their return addresses but letters mailed in Howe for distant points will bear a new postmark when processed in the Dallas post office.

The new postmark will read "U. S. Postal Service, TX 752," Davis said. "Local letters, mailed in Howe for delivery in Howe, will not be sent to Dallas and will continue to bear the Howe postmark."

The Dallas Post Office, one of the most highly mechanized in the Southern Region, has five 12-operator position Letter sorting Machines, each equipped with Zip Mail Translators that can process a maximum of 43,500 letters an hour, and separate them into 277 destinations.

In addition, the Dallas Post Office has an Optical Character Reader that processes 43,500 letters an hour, and breaks them out into 305 destinations without an operator.

Ulsaker pointed out that only 20 of these OCR Machines are in use in the entire U. S. Postal Service, and of the three in the Southern Region, Dallas has one.

Moreover, the Dallas Post Office is equipped with four single position Ziptronic Machines that separates mail into 100 wickets or pigeonholes.

Finally, the Dallas Post Office has seven Mark II Electric Facer-Canceler Machines that can cancel the postage on 33,000 letters an hour.

The cancelling machines are equipped with new devices known as edger-feeders that automatically feed letters into the facer-canceller machines (continued on page six)

Cheerleaders for the Bulldogs 1972-'73 season are Kathy McCellan, head; Debbie Melton; Debbie Underwood and Debbie Adams. These girls attended S.M.U. cheerleading camp this summer. While there, they were awarded a superior, an outstanding and an honorable mention rating by the National Cheerleaders Association. Their ribbons will be on display at the high school.

### Scrimmage games, barbecue here Friday night; schedule starts Sept. 8

Barbecue and football will be the program Friday night, as Howe Bulldogs scrimmage the Whitesboro evens on the local field, preceded by a barbecue dinner to raise funds to purchase a camera for the team.

Howe scrimmaged Prosper last week, and will play the first regular season game next Friday night against Anna, on the Howe field.

Proceeds from the barbecue this week will be used to purchase a movie camera for filming of games, which are used for study by coaches and players.

### Some businesses to close Labor Day

Monday will be a holiday for most of the nation's working force. Most Howe businesses, however, will remain open for business. The day, Labor Day, will be the first official holiday for school youngsters. Classes will resume on Tuesday.

Local businesses closing for the day include Howe State Bank, Post Office, Reeves Cleaners and Fabric Shop, Estep Furniture and Appliance. White Auto Store will remain open until noon.

Grocery stores and some other retail firms, service stations etc, will remain open.

Tickets are available from members of the team and drill team members. The feed is slated for 5:30.

Coach Norman Dickey this week announced probable offensive and defensive starters. On offense, he lists Dickie Thornhill at end, Jackie Dunn and Jack Holcomb, tackles; Ronnie Davis and Joe Gray at guard positions; Davis Finney, center; Vincent Hash, quarterback; Jackie Monk and Steve Allison at halfback slots; and Steve Hollens at fullback.

On defense, Finney and Mark Schneider will fill the guard positions; Dunn and Davis at tackles; Holcomb and Monk and Hollens at line-backer slots; Roger Lankford and Thornhill at cornerback; and Allison and David Hill at halfback.

Complete roster and photos of the team will be published next week.

### PTA Meeting

The Howe PTA will meet September 7 at 7:30 p.m. in the Junior High Gym.

The program will be presented by Mr. L. T. White, principal of the Fairview school in Sherman. His topic will be "For the Love of Children".

### CENTENNIAL PLANS PROGRESS

Plans for Howe's Centennial celebration, September 23-30, were advanced last Thursday night during a meeting of members of the Chamber of Commerce and committee members.

Tentative times, locations, and dates of events were set, subject to change. A called meeting of committees and other Chamber members has been set for Monday night, September 11.

Committees and details of events include a kickoff parade Saturday, September 23, with a barbecue following.

Judges for the beard contest, are Cadar Perkins, J. C. Waller and W. E. Yonce. Trophies will be presented for the

"Best beard, sorriest beard," and "Peach fuzz."

Queens, a senior queen and Junior Miss, will be named on Monday night, September 25, based on amount of donations received for a color television set to be awarded during the week. Queen committee members are Mary Lankford and Glenda Baker.

Queens will receive crowns, plus a \$20 gift certificate redeemable at any Howe business, and all contestants will be presented a Certificate of Participation, and flowers.

Old Fashioned dress contest judging will be held Thursday night, with four trophies to be awarded to the best dressed women (continued on page two)

### Tentative Centennial Program

Tentative program for Howe Centennial Celebration September 23-30, 1972:

SATURDAY, September 23:

4:00 p.m.--Parade through downtown area, Highway 5, and Hanning Street, beginning at High School building.

5:00--Barbecue, downtown area.

MONDAY, September 25:

7:00 p.m.--Centennial Queen program, crowning of Senior and Junior Miss Queens, downtown area.

8:00 p.m.--Music by Jerry Foster and band, downtown area.

TUESDAY, September 26:

6:30--Free watermelon feast, grade school grounds

7:30--Domino Tournament, grade school gym (four trophies to be awarded)

WEDNESDAY, September 27:

Community Church Singing.

THURSDAY, September 28:

7:00 p.m.--Old Fashioned Dress Contest, downtown area.

8:00 p.m.--Square Dance, downtown area. Pep Rally for Homecoming Football game.

FRIDAY, September 29:

7:00 p.m.--Introduction of Centennial Queens, Beard Judging Contests, football field.

7:30 p.m.--Homecoming Football Game.

SATURDAY, September 30:

(Business area blocked off)

8:00 a.m.--Old Fashioned bargain day by businesses.

Sidewalk Art Show

Sidewalk Antique Show

Sidewalk display for cooking contest

Sidewalk display for sewing contest

AWARD COLOR TELEVISION SET

8:00 p.m.--Womanless Wedding, grade school gym.

# 35 years ago this week The Howe Enterprise

Your Home Town Newspaper

Vol. XVIII, No. 10

USPS 253240

Thursday, Sept. 2, 1982

25c

## Howe's that...

**THE LOCH NESS MONSTER** is a log. So says a scientist in Scotland who has been studying the phenomenon for several years. He says that a certain tree that grows on the edges of Loch Ness could be rotting at the bottom of the lake and the gases inside make it come to the surface occasionally.

Of course, this is only a theory as to what causes sightings of the so-called monster, but it does sound possible. I wonder what they will find to explain "Bigfoot." Do you suppose he is really just a big bear? While I don't really believe in all these "monsters," it is kind of fun to wonder about the unexplained mysteries of the world. And also the UFO sightings are to be taken into account. Probably E.T. phoned home and the space ships have come for him.

**CONSPIRACY RUMORS** - It has been in the news a lot lately about the rumors that Proctor and Gamble is owned by a Satan cult or something along that line. The rumors really got out of hand saying an executive of the company appeared on national television saying he had sold his soul to the devil and the P&G trademark was really a satanic symbol. Proctor and Gamble have denied these allegations. In fact, there was no appearance on national television and the trademark has been around for more than 100 years. Isn't it ridiculous how these stories get exaggerated and spread?

I saw an interview on television with a psychologist who explained that rumors such as this one is a "conspiracy rumor." It seems people feel important when they tell such a story as if they have inside information. And the idea of a conspiracy also appeals to people who want to believe that someone is pulling all the strings to control the world or a part of it.

**WITH THE OPENING OF SCHOOLS**, Texas drivers are strongly cautioned to be alert for students on their way to and from schools.

Motorists must exercise extreme care in school areas and along school bus routes. Texas law requires motorists to stop for any school bus loading or unloading passengers. To warn drivers, such buses will have alternately flashing red lights on the front and rear. Motorists must remain stopped while these red lights are flashing.

The Texas Department of Public Safety's statistics for 1981 showed there were 17 deaths and 925 injuries in 1,698 school bus-related accidents.

Safety officials say that drivers should also be alert at railroad crossings since school buses are required to stop, look and listen before crossing the tracks.

To remind drivers that special alertness is needed around schools and school buses, most cities will increase police surveillance.

In Howe, police regularly patrol the school zones as a reminder for drivers to be careful.

**HAVE YOU REGISTERED TO VOTE?** - Qualifications for voting are: 1. You must be a citizen of the United States; 2. You must be at least 18 years of age on the day of the election; 3. You must be a resident of the county, or political subdivision conducting the election; and 4. You must be registered to vote.

You may register by completing a post card application for voter registration and mailing it postage-free (or present it in person) to the voter registrar in your county. To obtain a voter registration application, contact your county voter registrar or call the Secretary of State's Office toll-free at 1-800-252-9602 and one will be mailed to you.

You may register to vote at any time, but your application must be received by your county Voter Registrar by Oct. 3, 1982 in order for you to vote in the Nov. 2, 1982 general election. Because Oct. 3, 1982 falls on a Sunday, persons wishing to register in person at the voter registrar's office by the Oct. 3 deadline must do so no later than the close of business, Friday, Oct. 1, 1982.

You may register to vote if you are at least 17 years and 10 months of age, but you may not vote until you are 18 years of age.

Persons not entitled to vote are: 1. Those convicted of a felony whose full rights of citizenship have not been restored; and 2. Those persons found mentally incompetent by a court of law.

Texas Governor Bill Clements has declared the period from Aug. 11, 1982 to Oct. 3, 1982 as an official statewide "Voter Registration Drive." Only two out of every three eligible voters in Texas are registered to vote. If you haven't registered, please do so today. Your vote can make a difference.

## Celina Plans Fun Day

The Chamber of Commerce in Celina is sponsoring the first Celina Square Day on Saturday, Sept. 4.

The Celina Fun Run, entering its third year, will set a quick pace for the special day starting at 9 a.m. on the square. Late registration will be from 7:30 to 8:30 a.m. and the fee will be \$7.00.

Arts and Crafts booths will surround the center of the town square. The booths will be open from 10 a.m. to 6 p.m.

Games and contests designed primarily for children

and the young-at-heart will be featured from 2 to 4 p.m. A catered Texas Style Barbeque is on the menu of activities from 6 to 8 p.m. At other times during the day soft drinks and hot dogs will be among the refreshments available to those in attendance.

Entertainment will be featured throughout the day. Prize drawings will be held every hour. A tug-of-war has been set.

The day will be topped off with dancing on the square from 8 to 9 p.m.

## \$900 RAISED IN CF BIKE-A-THON

Pledges totalling more than \$900 were collected by the 26 participants in the Cystic Fibrosis Bike-a-thon on Saturday, Aug. 28.

Tania Bement, daughter of David and Patty Bement, completed 26 miles during

the two-hour event - the most miles ridden. The most money was raised by Thomas Troxell, son of Chris and Margaret Troxell, who had pledged for \$11 per mile, a total of \$220.

Riders completing 15 miles or more were: David Bement Jennifer Mize, Shannon Parker, Chris Martin, Diane Bement, Regina Moore, Mike Fawkes, Adam Engel, Amy Moore, Tricia Fawkes, Jennifer Moore, and Rick Fawkes.

Zack Smith finished with 13 miles and those who rode 10 miles and under were Joanne Fawkes, Diane Engel Nancy Smith, Zetta Smith, Devin Engel, Stacy Stevenson, Susie Rideout, Bart Smith, Jamie Rideout, Holly Stevenson, and Robby Stevenson.

The bike-a-thon chairman, Anne Engel, is very proud of each of the people who helped to raise money to benefit the CF Foundation. The event was such a success because of everyone's cooperation and Howe's generosity.

Pledges must be turned in by Friday, Sept. 10, to Mrs. Engel. All riders received a coupon for a free Big Mac on Saturday and will receive a Dr. Pepper T-shirt when their money is turned in.

Riders who raised \$35 or more and who will receive a Ziggy T-shirt from the CF Foundation are Holly Stevenson, Jennifer Mize, Amy and Jennifer Moore, Nancy Smith, Chris Martin, Stacy Stevenson, Thomas Troxell, and Susie and Jamie Rideout.

CF BIKE-A-THON RIDERS at the starting line. Over \$900 was raised to help fight a disease that kills and cripples children.

## Bulldogs Begin Battles

The Junior Varsity football team will play Coppell Sept. 2, there, at 7 p.m.

The Howe Varsity Bulldogs will begin their season Saturday, Sept. 4, at 8 p.m. against Coppell at Bulldog Stadium.

Football tickets will be on sale each week during the ten-week season at the Howe State Bank, Howe Middle School, and Howe High School. Ticket sales will close at noon each Friday.

Pre-game tickets are \$1.00 for students and \$1.50 for adults. At the gate all tickets are \$2.00 for adults and students.

Directions to the stadium in Garland will be printed in next week's paper and will also be available at the high school.

## Enrollment

School Supt. Dr. Howard Tucker announced the total enrollment for the first day of school as 755 students. Last year the first day total was 754.

On Thursday, Aug. 26, 231 students were enrolled in the high school; 246, in the middle school; and 278, in the elementary school.

## Library Now Has Videocassette Movies

Beginning Sept. 1, the Howe Public Library will be starting a videocassette program for its patrons. Every two months the library will receive a packet of 15 videocassettes for circulation. Currently, the library has the following movies ready to check out:

Bedknobs and Broomsticks, The Bad News Bears, Here Comes Mr. Jordan, Flying Down to Rio, The Robe, Casablanca, On Golden Pond, Alice Doesn't Live Here Anymore, THX 1138, King of Hearts, The Guns of Navarone, Logan's Run, Get Out Your Handkerchiefs, It's A Wonderful Life, Endless Love, and Searchers.

The library has adopted the following guidelines for the videocassette project:

1. Borrowing privileges are limited to anyone 18 years of age or over with a valid library card and a borrowing

record in good standing.

2. There will be a loan period of 3 days. Movies may be renewed if there are no reserves.

3. Reservations may be taken, but no more than 3 holds may be made on a given title.

4. Only one videocassette per card or one per family may be checked out at a time.

5. A fine of \$1.00 per day will be charged for any videocassette that is returned late.

6. An obligation card must be signed by the patron when checking out a videocassette. The patron assumes responsibility for the film.

7. No reproduction or copyright infringement will be allowed. No showings or exhibitions at any formal gathering or meeting are allowed.

## School Board Holds Meetings

The Howe School Board held a series of meetings Monday, Aug. 30, with all members present.

Three meetings were held at intervals in order to comply with Texas law concerning what items can be considered in the same meeting.

The first meeting began at 7:30 p.m. The board members approved the amended budget for 1981-82. After the amended budget is approved, it is filed with the County Clerk on or before Aug. 31.

The second meeting was called to order at 8 p.m. The only item on the agenda for this meeting was the budget hearing for the school year 1982-83. The only citizen to appear was Robby Cannaday who said he had no com-

plaints, but was appearing as an interested taxpayer. He said, "I didn't expect to be the only one here."

Board members explained several items to Cannaday. He asked what the board plans to do with the money from the Texas Instruments property. (Howe recently agreed with Sherman ISD on a contract, and Howe will receive \$20,000 a year for a 10 year period.) The board said they hope to keep the money set aside so they can draw interest from it.

Cannaday said that sounded like a good plan. Board president William Powell added that future school boards might change the plan, but the current board wants to set the money aside.

In the third meeting of the night, which began at 8:30, the board heard from Roger Luttrell of Howe Insurance concerning his recommendation that they go with an all-risk policy which covers everything except theft. Luttrell said the policy offers more coverage for less money because it is a different system. Board voted to approve buying the all-risk policy.

The board also set the tax ratio for 1982-83 at 43.5 cents in Maintenance and Operating and 16 cents in Interest and Sinking, for a total tax rate of 59.5.

## City Budget Hearing Set

Howe City Council will hold a budget hearing for 1982-83 on Tuesday, Sept. 7, at 7 p.m. in City Hall.

Expected income for the general fund (ad valorem tax, franchise tax, sales tax, license and permits, police fines, street rental, and due from water and sewer is proposed at \$204,280. Expenses proposed total \$204,280. This amount

includes \$75,385 for the police department and \$60,005 for the street dept. City Administrator Joe Fenton said in the general fund there is only one change and that is identifying expenses for a maintenance shop (utilities and supplies) which the city has operated but has charged off under different columns in the expenses.

In the police department \$3,250 is budgeted for a new vehicle. There was nothing in the regular budget for last year, however, revenue sharing and a surplus in the police dept. was used to purchase a vehicle.

In the street Dept. Fenton said of the \$60,005 proposed spending, more will go for materials on the ground due to the fact that last year's budget had the major expenses of setting up. Also due to the fact that work has been caught up on such things as drainage and other miscellaneous repair, only one fulltime employee will be working in the street dept. Part time employees will be used during the summer and good weather times. Fenton also noted that street repairs (potholes, drainage, etc.) is separated from contract work (which will be paving). In the street repair \$5,000 is in the budget and another \$5,000 will come from revenue sharing. \$18,335 is budgeted for paving.

Income for the sanitation dept. is expected to be \$60,475. A surplus from this year will be added. Total expenditures is proposed for \$63,175.

In the water dept. projected water sales to Howe residents should bring in \$120,850 and from sales to Sherman, \$25,000. The proposed budget calls for expenses of \$145,970.

About \$39,850 income is expected from the sewer dept. and proposed budget calls for spending \$39,653. A surplus is also expected to be carried over from 1981-82 to the new budget.

Fenton added that the city plans to raise water, sewer and sanitation rates. The water will go up from \$3.00

for the first 1,000 gallons to a base rate of \$3.50. The per 1,000 rate after the first will go up from \$1.25 to \$1.35. The base rate for the sewer will remain the same and the 35c per 1,000 will go up to 40c. Sanitation rates will be

raised by five percent (\$3.00 for single household will be \$3.15; \$6.00 for multi household will be \$6.30).

Fenton added that the council plans to set the tax rate at 49 cents, the same rate as last year.

## TP&L Offers Payment Plan For Over 65's

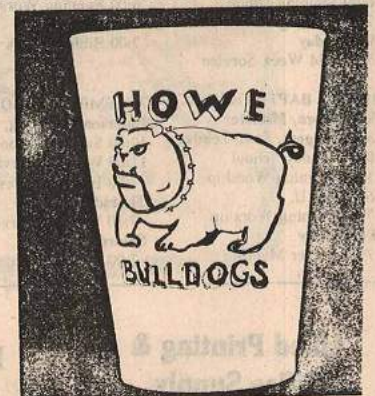

Texas Power & Light Company has announced a new program that will provide a convenient payment plan for those persons 65 years of age and older who receive Social Security or other pension benefits.

Mrs. Jo Ann Thompson, TP&L Assistant Manager in Sherman, said the program calls for special handling of the billing for qualifying residential customers. The program allows for payment of a bill on a designated date regardless of when the statement is received.

Thompson noted that those on Social Security normally receive their checks on or

about the 3rd of each month. Many find it most convenient to pay household bills at the time they receive that check. A good number of customers have experienced interruption of their routine because a customer is billed shortly after his or her meter is read and meters are being read throughout the month.

The new program provides for a qualifying customer to be able to pay the bill at the more convenient time. Customers interested in the program should go by the TP&L office to establish their qualifications.

BULLDOG CUP will be sold filled with soft drinks at the football game Saturday night. Stop by the PTA concession stand for a snack and souvenir cup.

## Bulldog Cups At PTA Concession

"Bulldog Cups" will be available at the first football game, Saturday, Sept. 4. These souvenir cups were donated by Dwain's Paint and Body Shop, Howe State Bank, Magni-Fab Southwest Co., and Roxanne Smith, D.D.S.

The supply is limited; only 2,000 have been ordered. The cup, filled with your favorite drink, will be sold for only 50c. Where else can you buy such an inexpensive souvenir.

The PTA concession stand will also be serving a variety of food items - pizzas,

nachos, hot dogs, chili dogs, corn dogs, frito pies, and a variety of chips and candies. Plan to eat at the game and help the PTA help the students.

Also an extra special thanks to all of our supporters and to Dwain's Paint and Body, Howe State Bank, Magni-Fab Southwest Co., and Roxanne Smith, D.D.S. Without the support of all these our task would be a much greater one.

See you at the game Saturday night.

## Howe's That . . .

**REMEMBER WHEN...** This is the year for the big All-School Reunion, which will be held in conjunction with Homecoming, Oct. 1-3, with lots of activities scheduled.

The *Enterprise* is planning a special section of the newspaper which will highlight the activities of Homecoming '92 and also give an opportunity to "remember when." If you would like to salute a former student or class, contact us at 532-6012. We will be selling ads starting at \$15 and you can include a photo at no extra charge.

Also we would like to be able to list news about class reunions or other special events for that weekend. Deadline for ads, news, and photos is Wednesday, Sept. 23, at 4 p.m. The special section will be included with the Oct. 1 edition of the newspaper. Extra copies of the "Remember When" insert will be available free of charge as long as they last.

### CHOO CHOO TRAIN CAKE -

Grandson Jordan will be celebrating his second birthday soon (Oct. 5). As I have told you before, he is very fond of "choo choo" trains, so his mommy is going to make him a choo choo train cake for the big event. She has also been trying to teach him to say he will be two on his birthday. But, when you ask him how old he will be on his birthday, he says, "Choo choo train cake!" (He does eventually say two and hold up two fingers - or sometimes three fingers!)

He likes for his "Nannie" (that's me) to draw pictures for him. He wants me to draw a choo choo, then we add Jordan as the engineer and we have to put in Papa, Daddy, Mommy, etc. Sometimes I have to draw five or six choo choos (depending on how many blank pieces of paper he can come up with). I have also added to my drawing assignment: Papa's bus (van), the outline of Jordan's hands, and pictures of all his immediate family (and anyone else he can think of!). He likes to keep me busy drawing, but he's not too critical which is good. I'm afraid I'm not much of an artist.

### NOTICE -

If you have recently had a photo published in the *Enterprise*, please make arrangements to pick it up. All photos submitted for publication should be accompanied by a self-addressed, stamped envelope for prompt return. Photos submitted without SASE will be held for 60 days before being disposed of. Call 532-6012 or 532-6476 if you need to arrange to pick up a photo.

### Volunteers Needed

The Friends of the Howe Community Library will have a booth at the Sherman Arts Fest on Saturday, Sept. 19. Volunteers are needed to help with this booth. If you can help, call the library at 532-5519.

### Holiday

The Howe Community Library will be closed Monday, Sept. 7, for the Labor Day holiday. Also to be closed will be Howe schools, Howe State Bank, Howe Post Office, Howe City Offices, and Howe SNAP Center.

The Howe *Enterprise* office will be open from 9 a.m. to noon on Monday, Sept. 7. **Deadline for news and ads will be noon on Monday, Sept. 7.**

## Where Are They Now?

by Rose Peters  
Aug. 21-23 - Gordon, Nebraska. Gordon is another one of our special rodeos. Although it is a long way up there, we enjoy the sights. The Sand Hills are very beautiful, though almost no trees. Gordon is almost on the South Dakota border.

This was the 107th year for the Sheridan County Rodeo.

For the last two years, we've had some friends come from home and visit us there at Gordon. These are the same ones we mentioned earlier that came to Eminence, Mo. When they got there, we went touring around. We went to Ellsworth, Neb., south of Gordon about 54 miles. There is an old store located there. There are boots, clothes, horse tack and lots of interesting pictures and things everywhere. The floor is wooden with a pressed tin ceiling. In the back, there is small manufacturing plant were they make Morgan bags. They make rope, clothes, bags and purses. We continued our tour of the area. We stopped at Western stores

and antique shops all along the way till we return to Gordon.

Every year at Gordon, we have two stars to play and sing. This year, we had Diamond Rio on Thursday night before the rodeo and on Saturday night we had Susie Boggus. Both did good jobs and entertained us royally. At Gordon, we get to set our chairs right in front of the stage.

I'm always amazed watching them pull in the stage and set it up. It's permanently on a flat bed trailer. The committee pulls it in with a tractor and then moves the bleachers around to the side.

This year our fun was dampened by sickness. Seems there was a 24 hour flu bug going around. Nearly everyone in town had it as well as the committee and rodeo people. Duane got it on Thursday. One of our friends got it Friday. I thought I was past it, only to get it on Sunday after that performance. Finally everyone has recovered or is on the mend. Next week, we go to Ashland, Missouri.

## Back-To-School Risks Can Be Avoided

The majority of children complete the academic year without receiving a major school-related injury, however, children and adults should know the risks associated with going back to school.

According to Jeanne Bouvette, RN, MSN, neuroscience clinical nurse specialist at Ochsner Foundation Hospital and member of Louisiana's Coalition for Head and Spinal Cord Injury Prevention, parents, teachers, and other adults should work together to look out for the safety of school kids.

"The best way for adults to make sure that risks are reduced for kids is for them to communicate with school administrators and parents," Bouvette said. "If they see potential hazards or if they see a child acting in an unsafe fashion, it should be reported to the school principal before an accident occurs."

Bouvette advises that people "quiz" themselves on this back-to-school checklist for:

### CHILDREN WALKING TO SCHOOL

- Remember to stop, look both ways and listen.
- Walk against the flow of traffic.
- Obey all traffic signs, signals and school crossing guards.
- Wear bright clothing and/or bright raincoats and book bags.
- No talking to strangers or walking on unsafe routes.

### CHILDREN RIDING TO SCHOOL

- Safety belts should be used by all passengers in cars.
- Children should listen to the school bus driver and remain seated while the bus is moving.
- Drivers and children on school buses would be aware of each other when entering or leaving a school bus.

Children should be dropped off for school at the designated zones, not just any corner near the school.

### CHILDREN BIKING TO SCHOOL

- Always wear a helmet and shoes when bike riding. Helmets can reduce a rider's risk of serious head injury by 85 percent.
- Avoid loose gravel, wet pavement and bumpy roads.
- Watch for all traffic signs and signals and stop at street intersections.
- Ride with traffic and wear light-colored clothes and bike reflectors and a headlight if riding after dark.

### -Bikes should be kept in bike racks and in working order.

### PLAYGROUND ACTIVITIES

- Be sure that all playground equipment is in good condition. All equipment should be regularly inspected for defects and repaired or removed if causing injuries.
- Walk and play a safe distance from swings.
- Playgrounds should be adequately supervised, either by a teacher or with volunteer parents.
- If playing a contact sport at recess, children should be on a grass or dirt surface.

### FIELD TRIPS

- Field trips should have enough chaperons available.
- There should be an approved first aid kit available for trips, along with the first aid supplies that remain at school.

### CHILDREN AT HOME

- If children are old enough to be at home by themselves, they should know emergency telephone numbers and keep the doors and windows locked.
- Children at home answering the telephone should always say their parents "can't come to the phone right now," not that their parents aren't there.
- If a weapon is found at home, a child should know not to touch it and to notify an adult immediately.

## Police Report

Police report for Aug. 23-29: four arrests, one burglary, one theft, one accident (four vehicles involved), two alarms answered, two complaints, two disturbances, four miscellaneous calls, and three motorist assists. Also, the Howe PD issued 45 traffic citations and made 105 vacation home checks.

## HELP!

Cleaning out your garage or storage area? How about donating your items to the Howe Fire Department Garage Sale. The annual Garage Sale will be held in October. The Howe VFD Ladies Auxiliary is greatly in need of your usable items for the sale. Please bring to the fire station or call Darlene Nichols at 532-6502 or Phyllis Kelso at 532-6845.

With your help, they are hoping for big success once again on their annual sale.

### REMEMBER WHEN...

We can't return to the "good old days" of sitting at the soda fountain drinking nickel Cokes, but we can remember those days and all the other days of Howe Schools at the Homecoming '92 Reunion to be held Oct. 1-3.

## News Bulletin On Homecoming '92

Word has been received at Homecoming '92 headquarters that Elvis may include Howe as one of his stops for his fall tour. He is being lured to this area by a promise of free room and board plus a dozen jelly donuts. Be sure and watch for further details.

There has also been much interest in exes wanting to display and see old pictures, annuals, etc. of the school and the community. If you want to display some items, please contact Merle and Jim Bearden at 532-5394. This display will be Saturday, Oct. 3, 9-12 noon in the Howe High School Cafeteria.

### Cafeteria.

Homecoming '92 brochures were labeled and prepared for mailing this week by Harold and Wanda Taylor, Alton and Jean Norman, Patsy Burrow, Carolyn Cavender, Sharon Griffin, Syretha Bush, and Freddy and Iva Holcomb. Even though 1,670 brochures were to be mailed, there may be some EXES who have moved. Their brochures will not be forwarded. Look in the *Howe Enterprise* next week for a list of names and addresses along with your correct address which will be added to the data base and will provide a more accurate Howe EX-Directory.

## Bulldogs To Begin Season Against Rival Van Alstyne

The Howe Bulldogs begin their 1992 football season Friday night, Sept. 4, with a pre-district home game against the Van Alstyne Panthers. The game begins at 8 p.m. at Bulldog Stadium.

The varsity team includes 14 seniors, 9 juniors and two sophomores. Quarterback for the Bulldogs is Brian Freese, a 6'5", 185-lb. junior, who as quarterback last year led the Bulldogs to a District championship with an 8-3 season and was named to the All-District second team.

Coaching the Bulldogs are Head Coach Joey McQueen and assistants Billy Hill, Steve Simmons, Tim Rose, Tim Smithart and Sean Griffin.

Helping to encourage the team from the stands will be the cheerleaders, drill team and band.

The varsity cheerleaders are Heidi Keene, Amy Walker, Stacy Bronnenberg, Beth Judkins, Melissa Boles, and Leslie Wiggins. Jamie Middleton is the mascot, Spike. Cheerleader sponsor is Tina Yates.

The Howe Highlighter Drill Team is sponsored by Bettye Mullins. Officers are Brandi Hash and Amy Moore.

The Howe High School Marching Band is directed by Elmer Schenk. Anita Schenk directs the Flag Corps.

Advance football tickets are on sale until noon on Friday at the high school office, middle school office and Howe State Bank. Advance tickets are \$2 for students and \$3 for adults. All tickets are \$4 at the gate.

The next three games will be away games against Royse City, Farmersville and Valley View on

Sept. 11, 18 and 25. On Oct. 2 Howe will host Lone Oak in the homecoming game and last pre-district game.

On Oct. 9 the Dogs kick off district play at Celina followed by a home game vs. Pilot Point on Oct. 16, away games against Aubrey and S&S on Oct. 23 and 30, and end the regular season against Little Elm on Nov. 6.

There is still some reserved seating available at Bulldog Stadium. Seats are being sold for \$25 each for the season. Contact the Howe High School office concerning reserving these seats for home football games.

## Football Game To Be Rebroadcast

KJIM - 1500, Sherman AM radio station will be rebroadcasting the Howe Bulldogs vs. the Van Alstyne Panthers football game on Saturday morning beginning at 8 a.m. Fans who miss the Friday night season opener or those who want to hear it again can tune their radio to 1500 on the AM dial for complete coverage of the game.

## 'Golden Bulldog Backer' Cards Offered To Senior Citizens

Gold cards inscribed with "Golden Bulldog Backer" will admit senior citizens of the Howe ISD to all district school events where admission is charged. Patrons of the District who are 65 years of age or older qualify for this special card, and are urged to come by the school business office or call 532-5518 to obtain their card. Those persons who

already possess a "Golden Bulldog Backer" card may continue to use their card. New cards are not needed yearly.

The Howe ISD would like to honor senior citizens of the district for their contribution to our community and school district by offering these free passes for all Howe school events.

## Mark Your Calendar

**HOWE COMMUNITY LIBRARY BOARD** will meet Tuesday, Sept. 8, at 4:15 p.m. in the board room of the HISD administration building.

**HOWE CHAMBER OF COMMERCE** will meet Monday, Sept. 14, at 5:15 p.m. at Allied Printing and Office Supply to kick off the year.

**HOWE AG BOOSTERS** will meet Monday, Sept. 14, at 7:20 p.m. in the Ag room. Homemade ice cream will be served. The public is invited.

**UNITED METHODIST WOMEN** of Howe will hold their annual community salad supper at 6:30 p.m. on Monday, Sept. 14, at the First United Methodist Church. Guest speaker Rose-Mary Rumbley will review the book "The Kicks on Route 66." All community is welcome, both men and women. Bring a salad and join the fun.

**ALCOHOLICS ANONYMOUS** meets every Wednesday at 8 p.m. at 114 S. Preston. Van Alstyne (old TU Electric bldg) Call 903-482-6246 for more information.

**HOWE LIONS CLUB** meets the 1st and 3rd Wednesday of every month at 6:30 a.m. at the Community Room of Flesher Funeral Home, Howe.

**HOWE COMMUNITY LIBRARY** hours 8 a.m. to 5:30 p.m., Monday through Friday, and Saturdays, 9 a.m. to noon. (Closed Labor Day.)

**HOWE CITY COUNCIL** will meet Thursday, Sept. 17, at 6 p.m. at City Hall. Meeting is open to the public.

## Howe's that ...

by Lana Rideout

Sometimes reporters who cover city council or school board meetings don't actually make it to the meetings. They call up the city secretary or school superintendent and get the information for their article.

However, if they have a copy of the agenda for the meeting, they may make certain assumptions about what happened. This can lead to problems with the article.

I have noticed in articles published in a newspaper from a nearby city that the reporter did not ask enough questions.

For instance, the Howe School Board did not go into closed session at their July meeting as the article written in that other newspaper said. Instead the board approved the item without discussion based on the superintendent's recommendation. The closed session was not needed.

Also I noticed the same reporter in the article about the Howe City Council's meeting last week stated that the board recognized student volunteers at the Howe Community Library. That agenda item was postponed until the September regular meeting.

While I am commenting on what that reporter did, let me assure you that I have made similar mistakes in the past. We all make mistakes, and you will most likely find in this issue of the Enterprise words spelled incorrectly or sentences that don't quite make sense because of a word being left out or added.

These comments are to help me remember to try to be more diligent in proofreading and in asking the right questions.

## HOWE

### Council works on \$2.6 million budget; Plans to lower tax rate

by Lana Rideout

The Howe City Council is considering a \$2,683,000 budget for the 2007-08 fiscal year. The tax rate they plan is actually lower than last year's. The budget is being considered with a tax rate of \$.437041 per \$100 valuation.

(The 2006-07 budget was \$2,333,224. Property tax rate was \$.485 per \$100.)

City Secretary Barbara Alvarado also said the city plans to continue the water base rate as the same level as the current year, \$18 minimum for the first 1000 gallons. The "steps" - rates for gallons over minimum will be raised some according to proposed plans for the new budget.

During a budget workshop on Tuesday, Aug. 21, the council discussed ways to cut some budget items. City Administrator Steve McKay and Police Chief John Cherry plan to check the insulation on all city buildings and work on plans to turn off lights not in use to help curtail higher utility costs.

Addressing issues on salaries of city employees, Alvarado told the mayor and council that the budget plan includes a \$1 an hour raise across the board. McKay and Cherry both praised the work of their employees as well as the valuable experience of several of the staff.

Cherry said, "We not trying to compete, we're trying to survive," adding that often the Howe PD is a training ground for officers who leave to work for nearby police departments that pay a higher salary.

The meeting to approve budget and tax rate will be held in early September.

The regular monthly meeting was held at 6 pm on Tuesday, Aug. 21, with Mayor Michael Jones presiding. Council present were Same Haigis, Jack Leavenworth, and James Johnson. Absent were Jeff Casteel and Scott Harris.

During Jerry Campbell's report on city ordinances, the council briefly discussed a billboard on Collins Fwy. just north of the elementary/middle school buildings. The council and City Hall have received a number of complaints about the sign with advertising Mayor Jones stated, "doesn't fit the community .. it is offensive."

Campbell said he had been in contact with the sign owners about changing the wording, but the council said they feel the message needs to be replaced to advertise a business more in keeping with a small rural community.

Rob Crow, Assistant Fire Chief, presented a plan to give volunteer firefighters a discount on their water bill. Crow listed several stringent criteria to allow volunteers to receive this discount and said he hopes this plan will help recruit new members. Although the council did not take any action, they indicated they are in favor of it.

The council also:  
\*Re-appointed Jennifer White to a two-year term on the Howe Community Library Board.

\*Passed several resolutions to have certain procedures in place as required for a HUD grant the city is receiving for road work on Long St, Patterson St, and the 800 block of N. Hughes.

Dalton Felder on his way to a touchdown in the 28-6 victory over Whitewright on Saturday, Aug. 25.

## 3rd and 4th Grade Howe Bulldogs beat Whitewright, 28-6

The 3rd and 4th grade Howe Bulldogs played the Whitewright Tigers in their first game of the season Saturday Aug. 25, in Tom Bean. The Bulldogs showed an explosive offense and a gritty defense while defeating the Tigers 28-6.

Bulldogs who contributed to the team victory were Austin Bearden, Zachariah Braswell,

Stratton Carroll, Zachary Daniels, Cody Enders, Dalton Felder, Payton Fowler, Tristin Gajadien, Tanner Hartsfield, Mason Huebner, Noah Johnson, Michael Kehrer, Matthew Mariano, Dawson McDonald, Levi Mrozinski, Austin Palasota, Ethan Palasota, Sheldon Parkman, Brandon Riggins, Brennan Ross, Seth Seibold,

Clay Slaughter, John Stapleton, Blake Trammell and Troy Watson.

The Bulldogs next game will be Saturday, Sept. 1, in Celina with a 12:30 pm kickoff against the Tom Bean Tom Cats.

## DPS troopers say, "Drink. Drive. Go to Jail."

Texans planning to celebrate the last three-day weekend of the summer should know that the Texas Highway Patrol will be out in force looking for people who are driving while intoxicated. During the Labor Day weekend (Aug. 31 to Sept. 3), all available state troopers will be out on Texas roadways in support of the "Drink. Drive. Go to Jail." program.

"We are serious about enforcing this law," said Col. Thomas A. Davis Jr., director of the Texas Dept. of Public Safety. "Too many innocent people are killed every year in this state when drivers choose to consume alcohol and then operate a motor vehicle. We intend to do our part to find those intoxicated drivers and get them off the road."

It is illegal in Texas to operate a motor vehicle with a breath alcohol content of 0.08 or above. During the Labor Day weekend in 2006, DPS troopers arrested 887 people across the state for driving while intoxicated.

The punishment for a DWI conviction:

**First offense:** Fine not to exceed \$2,000 and/or a jail term of 72 hours

to 180 days; participation in an alcohol education and treatment program even if probation is granted; license suspension from three months to 1 year.

**Second Offense:** Fine up to \$4,000 and/or jail term of 30 days to one year; mandatory 72 hours in jail even if probation is granted; license suspension from six months to two years.

**Third Offense:** Fine not to exceed \$10,000; prison term of two years to 10 years; mandatory jail term of 10 days even if probation is granted; license suspension from six months to two years.

**Intoxication manslaughter:** Fine up to \$10,000, prison term of two to 20 years, license suspension from six months to two years.

DPS also is a participant in Operation CARE - Combined Accident Reduction Effort - a nationwide effort by police agencies to reduce fatalities on major interstate highways during holiday weekends.

In addition to intoxicated drivers, troopers will be looking for speeders and those who are not wearing seatbelts as required by law.

The Howe PTA and the Howe Chamber of Commerce sponsored the annual Back to School luncheon for the teachers and staff of Howe ISD on Friday, Aug. 24, beginning at 11:30 am at the High School Cafeteria.

The HISD staff members enjoyed visiting with each other as they feasted on Tex-Mex food. Several members of the PTA and the Chamber helped service the food and also passed out numerous gifts donated by area businesses and citizens. See page 2 for list of sponsors for this event.

## Howe's That

Being a former player for The Howe Bulldogs, it was special to get to broadcast the game on Friday night. It wasn't my first Howe game to broadcast, however. Back in 2010, I did the Howe vs. New Boston playoff game on radio.

Thankfully, I was able to keep all of those 1989-1990 Howe Bulldog radio broadcasts of our playoff games from way back when. I have used some of those highlights in the opening segment. Back in those days, a man by the name of B.K. Lindsay did the play-by-play for KMKT-AM out of Denison. But the first year, in 1989, a man by the name of Commodore Wood did several of our games. Wood was a legend among the world of Denison Yellow Jacket fans. I worked 15 years in play-by-play for Sherman, Denison and McKinney and unfortunately never worked with Wood. But I do owe a lot to those who helped me get started. Guys like Bob Sullins, Lynn Burkhead and Chuck Kelly taught me a ton about what I do. A lot of what I heard from them, come out in what I say during these broadcasts.

## Bulldogs win season opener over Bonham

Stratton Carroll moments after scoring on a 55 yard run Friday night

The Howe Bulldogs changed philosophies on offense this year partly because Head Coach Zack Hudson wanted to control the tempo of the game more by running the football. Usually a 14-0 win doesn't indicate a dominating performance, however, it was just that for the Howe Bulldogs as Howe has won on opening night for the seventh time in the last eight years.

Bonham's running back Kenton Manis started strong on the

## Abbington Meadows close to breaking ground

Similar property owned by Rea Ventures Group

Two weeks ago, the final plat was approved for the new Abbington Meadows apartment complex. The location of the complex will be on the southwest part of Howe at the corner of Hall Cemetery Road

the service road for US 75. Rea Ventures Group will break ground in September. The company has developed over 3,460 units of multi-family housing, 130 units of single-family housing, and

## City streets get special attention

Farmington Road completely resurfaced

The City of Howe recently spent \$27,994.50 to have Farmington Road completely overhauled. Also \$1,927 was spent on shaping up Beatrice and Aubrey Streets which are major arteries for Howe Elementary and Middle Schools.

A private contractor recently reworked the intersection of Ricketts and Mayo and the intersection of Timber Creek and Pioneer Valley. The total for that project was \$14,284. The total amount for all repairs to local streets was \$44,205.50.
